Directive: "another sweep through the membranes to better focus in on their transcription ... our best work."

Structure: **Phase A** — membrane 009 full line-by-line under Fable 5 (the one leaf never so read; bands `crop_s9p_b1..b9`, q84). **Phase B** — 010 grid rows 1–12 re-verified under Fable 5 (rows 13–16 + all name-zooms already are; recut lean per the recorded grid geometry: cols `g1` x0.015–0.285 · `g2` 0.265–0.535 · `g3` 0.515–0.775 · `g4` 0.755–0.99 × rows `b1`–`b12` of 16, y 0.02–1.00, `CROP_QUALITY`=80). **Phase C** — this

ledger's open items, tight zooms (crop_zg*, q88). All crops → session scratchpad tmp per MB-protocol v2.

This ledger doubles as the brief for the professional TNA commission.

E. STRUCTURE (textual, for the professional commission)

- E1: **Answer-numbering variance** — Lloyd's answer "4" (prison/dying charge) ≠ engrossed Art. 4 (Bulkeley procurement): the administered set was likely a variant/earlier state of the engrossed instrument. Watch Phase A for any 009-side evidence.
- E2: The **selective-administration interlock** (Towneley 3,4,5,6,¹³,15,16 ⇔ Lloyd 1–12,14) — confirmed; note for commission.
- E3: 010 rows 1–12 = the last Opus-era readings in the file → **Phase B**  **COMPLETE 2026-07-02** (48/48 cells; verdicts below; full readings in WORKING_010_TRANSCRIPTION.md "PRECISION RE-VERIFICATION" layer). **No Opus-era-only text remains anywhere in the file.**

Verdicts (Phase C zoom reads, 2026-07-02)

- **B6 (examination day)**: zg1date — the head-tear clips the numeral; the visible cluster ("<x?>" + "die me[nsis]") is **consistent with "xj" (11th), not decisive**. The 003R margin "xj[?]. Junij 1607" remains the better witness. → professional.
- **D1 (001 answer-3 struck word)**: zg1struck — reads "~~E[?]dward[?]es~~" (possibly twice in the zone: after "that he" and again before the Montague clause) — **the same wrong forename ("Edward") the scribe wrote and corrected ≥4× on 002**; struck before "was of Councill as a Councillor at Lawe together w[i]th [Serjeant] Montague." The "Edwardes" anticipation error at first occurrence. → professional confirm; D1 materially advanced.

- **C-warnings (001 b7 zone):** zg1will_b1 — "for these matters would be especialle / in the [very?] nature of a conspiracie" — the adverb "especialle" now CLEAN (the sweep's "[e]specialle[?]" flag lifts); the slot before "nature" reads bare-or-"very" (b1/b2 boundary), still bracketed.
- **C1 (001 "came from his [Countrey?/Councell?]):** zg1countrey2 — ✓ **RESOLVED** toward "his Councell": the token ends in a clear double-l ("-ell"), no y-descender — "Countrey" is OUT. "Jevan ffloud told this ex[aminan]t that he came [from] his Councell, & that he had a purpose to have [a bill drawne] accordinge to those instrucion" — and the very next clause corroborates: "to retaine two other Councellors besides those w[i]th whome he had ben." Sense: Lloyd arrived at Towneley's having ALREADY consulted counsel — a third layer of professional mediation before the bill existed (the Council-in-the-Marches reading fades; the Welsh-idiom "country" reading is retired). → update the 001 section at next fold-in; professional confirm.
- **D3 (002R "the Bill was drawne [by —?] up in pap[er]):** zg2drawn — ✓ the interline reads "by this ex[aminan]t [&/or?] his [man?]" — the paper draft was drawn **by Towneley himself** (possibly "& his man," his clerk) — squarely answering Art. 4's "did not one John Towneley, Councellor at Lawe, drawe or penne the said bill." Also at zoom: "Mountague" spelling; another "E—^{henrie}" strike-and-interline (the Edward error's 5th+ occurrence); "to be ffully satisfied." → professional confirm on the interline's tail word.
- **B4/B5 (Towneley's fee + its answer-number):** zg3fee — (i) the header reads "To . the 16 Interr[ed]" — the numeral favors **16** over 15 at zoom, which creates a SEQUENCE TENSION: the content (received of Rees ap Jevan Flo[ud] "for [C]ontinuinge[?] the s^[ai]d Bill ... & no other money of any other person") answers **Art. 15's fee limb**, and the deposition's CLOSING scope-objection answer was also read "To the 16" — the two 1[5/6] headers on 003L are a **paired professional item** (one of them is misread, or the clerk mis-keyed); (ii) the verb favors "continuinge" over "contriving"; (iii) the sum line refines: "**ffower pownds & [a ffewe? / seaven?] shillings more.**" → professional (both).
- **D4 (002L examiner's marginal note):** first cut (zg2margin y 0.615–0.710) landed on BODY text — bonus recovery: "whereof the s^[ai]d [Jevan] [liked?] well" (cleaner than the sweep's "[_] the like ... well"). Recut lower (zg2margin2) → see below.
- **D4 (002L examiner's marginal note):** zg2margin2 — ✓ the note framed whole, 4 short lines: "**S[i]r R[ichard] B[?]. affirmed [the] / [in]strucion in ~~some?~~ [struck] of / the materiall points / to bee true .**" — (i) the "2[0?]" of the first-sweep guess is the secretary **B** with point ("S^r R: B-"); (ii) ★ **the note itself carries a STRUCK word in the quantifier slot** ("in ~~some~~ of the materiall points" → toward "in [all?] ...," or the reverse) — the examiner REVISED how much Bulkeley affirmed; this explains the first-sweep "all points" vs re-sweep "some of the materiall points" divergence — which quantifier survived is a professional item (the direction matters: it is the court side calibrating the key admission); (iii) bonus: the adjacent body-text "~~Edwardes~~^{henrye}" strike re-confirmed — and the struck form clearly ends "**-es**" ("Edwardes," a name-form in its own right, same as 001's struck cluster): the clerk's recurring reach for "Edwardes" before "Montague" is now a pattern (5+ occurrences) worth flagging to the commission.
- **D6 (004R Bulkeley-list gap):** zg4list — ✓ **RESOLVED: the gap slot reads "Tristram [Bulkey]"** — the answer-side list completes as S[i]r Richard (kt), Daniell, **Tristram**, W[illia]m, Launcelott — now matching the instrument's five-man cast exactly (Art. 4/5 ⇔ answer 4/5). Also in frame: "putt into this Ho: Co[urte]," "[pro]curement, advise^{or intreaty}."
- **B2 (the Bulkeley loan amount):** zg5loan — "in Marche last past he this ex[aminan]t borro[wed] of the s^[ai]d **S[i]r Richard Bulkeley the som of ffortie[?] [s?], & then gave him a bill of his ha[nd] [for re]payment thereof**" — March ✓, the bond ✓; the amount is a SHORT f-initial numeral + abbreviation: best

candidates "**fortie s[hillinges]**" (= £2 — a modest personal loan, which would fit the answer's innocent framing) or "fowre/fortie [pounds]". → professional (the abbreviation mark decides it).

- **D7 (004L "because he was dead" restructure):** zg4dead — the zone verified in place: "**Courte of Comon Plees at Westm[inster] / of Conspiracie, touchinge those matters. And / touchinge the wronges done to [t]his ex[aminan]ts brot[her]**" clean; the strike sits at the crop's foot edge — existence confirmed, exact struck words → professional (multispectral with D8). The re-sweep reading stands.
- **B3 (the father's sum):** zg5father + zg5father2 — "[since he] was so acquitted he hath had [& borrowed?] of his ex[aminan]ts ffather the Som [of __ pow]nd & seaven Shillinges [since the] sixt day of october" — "seaven Shillinges" and the October anchor CONFIRMED clean; "hath had & borrowed[?]" (gift + loan) is a new nuance; the POUNDS figure sits under a fold/flourish — illegible at scan → professional. (First cut also re-framed the tenement lines: "Tyddyn [K]iew[?]" unchanged.)
- **B7 (the 008 order date):** zg8date — "accordinge to [an] ord[e]r made the [__]tenthe[?] daie of [June]" — the ordinal's terminal reads "-tenthe," which **DISFAVORS** the sweep's "twent[ie]th" (secretary "twentieth" ends -tith); best candidates: "**the tenthe daie of June**" (10 June 1607 — giving the tidy chronology: order 10 June → examinations 11 June per the 003R margin → Trinity-term decision) or a -teenth compound (16th–19th). → professional confirm; chronologically load-bearing.
- **D9/ans-12 refinements (006R):** zg6a12_b1/b2 — two unrecorded revisions in answer 12: the "be→was" micro-strike ("there be was [s]ome mention"); the kinsmen interline's ANCHOR refined ("then this ex[aminan]t ^{[havinge?] divers [kinsmen?] at that tyme} purposed to have [looked out good] suerties" — "in London" in the interline's unread middle or the next line). D9's final struck word (before "suerty") sits below both cuts → professional.
- **D11 (008 margin-"2" placement):** zg8m2 — ✓ **RESOLVED: the margin "2" anchors at the "And doe you beleve" line** (the brother-belief clause), NOT at the quarrels clause. Corrected boundary: **Art. 1 = the report question alone; Art. 2 = brother-belief + your-own-indictment + the Rees-quarrels** (the quarrels clause follows "yea or noe" mid-line with NO numeral — one article). Consequence: **Lloyd's answers 1–3 align with Arts. 1–3 exactly** (his answer 2 covers brother/wife/own-indictment/kinsman — as Art. 2 now reads); the E1 numbering variance SHRINKS to the answer-"4"/Art-4 tension only. Applied to _WORKING_008_TRANSCRIPTION.md + companion (correction notes; full renumber deferred to post-adjudication fold-in).
- **D10 (008 Art-2/3 interline):** zg8art2 — partially read: "[in?] word[e?] [or?] of him selfe[?]" — hangs between Art. 2's tail and Art. 3's opening; could enlarge either (quarrels "in word or otherwise"? / the bill preferred "of himself"?). Also in frame: "**that was executed w[i]th y[ou]r said brother**" re-verified CLEAN at q88; the quarrels clause's name possibly carries the THREE-ELEMENT form ("betweene yo[u] and Willia[m] ap Res [ap W[illia]m? / by whom?)" — would be a 7th attestation if confirmed); Art. 3 opens at the frame's foot ("did not yo[u] [pre]ferre a bill into the Starrechamber against M[r] Justi[ce]..."). → professional (interline + the ap-Wm/by-whom fork).
- **D5 (003R Art-1 interline after "p[er]sons"):** zg3int — the caret + small interline **confirmed in position** (between "p[er]son or p[er]sons" and the October clause) but its 1–2 words stay faint ("by name"? "att anie tyme"?) → professional. Confirmed in passing: the "to his remembraunce" interline; the pre-Barker strike (favored reading "Richard," a dittography). → D5 open-professional.
- **D2 (001 willed/refusal zone):** zg1will_b2 — solid tokens: "...& therefore this ex[aminan]t ~~[?]~~ willed ~~[struck interline]~~ [the s[ai]d?] Jevan ffloude to be of his [Councell?], to w[i]thstande the [Cause?/suite?], [& with whome he?] might conferre ..." — TWO live parses under the strikes: (a) Towneley willed Floud [to

acquaint the Serjeant]; (b) Towneley was willed by Floud to be OF HIS COUNSEL "to withstande" — i.e., retained precisely to weather the conspiracy exposure he had just named. Direction unresolved (dark strike + struck interline); "to w[i]thstande" is NEW and solid either way. → professional (strikes); the Serjeant-name in the acquaint clause sits lower (b8 zone), not re-cut this pass.

Verdicts (Phase B cell reads, 010 rows 1–12, 2026-07-02) — corrections vs the grid pass + NEW professional items

- ★★ **The purpose clause (b2) = JURY INTIMIDATION:** "of purpose not onlie to [vexe?], greve and trouble this def[endan]t ... butt alsoe to **stryke a feare into the h[a]rts of all such freeholders of the said Countie of Anglesey** [as] att the next greate Sessions ... shalbe **retorned or impannelled for or upon the try[a]lls of the said W[illia]m Bulkeley (whoe standeth indicted** att the said greate Sessions [as accessarie?])... **and of other the frends of the said W[illia]m Bulkeley** whoe stand [likewise?] indicted..." — RETRACTS grid "all the officers of the Chamber of England shall be questioned or imprisoned" ("retorned or impannelled" misread as "questioned or imprisoned"; "Countie of Anglesey" as "Chamber of England"; "freeholders" as "officers"). The defense-side FEAR rationale, in the record's own word. → professional confirm (esp. "[as accessarie?/as is witnessed?]" at the g4-L5 tail).
- ★★ **"Callinge in question" (b10):** the second denial reads "Neither was there anie plott practize confederacie or combynac[i]on betwene this def[endan]t and the said M[r] Bar[ker] or anie other **touchinge the callinge in question of anie of the said p[er]sons** in the said bill of compl[ain]t named for the murther ... **in or upon the said Inditem[en]ts**" — the manuscript's own term of art anticipating Coke's "drawn in question." → professional confirm (clause order).
- ★★ **£20 interlineation (b10, g3/g4 seam):** "not worthe xx li in all the worlde to this def[endan]ts kn[o]wledg[e]" inserted above "s[u]re meane estate as he is" — the complainant's poverty quantified. → professional (figure: "xx li" vs "xl").
- ★★ **Keys narrative REVERSED (b12):** LEWIS asked ("desiringe him that he might have the keys of the said Castell and Gaole **to his hands**, for the more [suretie?] [and] safe keepinge..."); BULKELEY refused ("that the said def[endan]t **should not have the key of the Castell**, but the Gaoler [ap]pointed by the said S[i]r Richard Bulkeley..." — read twice, g3+g4 L6). Grid's "[Sir Richard desired] that he might have the keys" RETRACTED. Also: "**S[i]r Richard Bulkeley Knight**"; "duringe his **Shir[ie]fwike**"; "forasmuche ^{as}" (caret); "(but) retorne[d] this aunswere."
- ★ **Dated appointment (b4):** "aboute the moneth of **ffebuar[ie] Anno D[omi]ni 1605** this def[endan]t John Lewis was ... **nomi[n]ated and appointed** [to] be Sheriffe ... **for the yere then next followinge or duringe his Ma[jes]ties pleasure**" — fills the grid blank; chronology locks Feb 1605/6 → Aug 1606 → Oct 1606 → 1607.
- ★ **Opening formula (b1–b2):** "very untrue and **scandalous**" (grid "fraudulent" retracted — "fraudulent" likely belongs to the prayer's bill-epithet, b3); "materiall matters and **things** therein conteyn[e]d"; "for sundrie **imp[er]fec[i]ons**"; contrivance "by the [instigac[i]on?] and **direcc[i]on** of the said W[illia]m Buckeley."
- ★ **Row-3 structure:** prayer → saving clause ("excepc[i]on to the incertaintie[s], insufficiencie and other the imp[er]fec[i]ons [and] defects thereof ... nowe and att all tymes hereafter saved and allowed") → general traverse ("not guyltie of the said unlawfull and manifest **plotte, practizes, confederacies**,

combinac[i]ons and misdemeano[u]rs ... nor of anie [?], [extor]c[i]on[?], sellinge of offices and other the offences ... as ... is supposed") — grid's conflation untangled.

- ★ **The jury returns (b5, b8):** impartiality formula complete ("w[i]thout anie p[ar]cialitie, favo[u]r, affecc[i]on, hatred or malice towards anie p[er]son or p[er]sons therein [named?]" — and repeated globally at b9 "All wh[i]ch said [seve]rall retornes..."); "as well Esquiers as gent[lemen] and other good and substantiall freeholders"; "accordinge to his place and office"; "as was requisite for his Ma[jes]ties ser[vice]"; "he referreth himself[e] to the said retorne beinge of Record"; "**Graunde Jury**" (b5/b6) and "**Examined Jury**" (b8) verified as DISTINCT terms (grand = indictment; Examined = trial); trial jury "upon lief & death," "**for the body of the said Countie**"; prisoners "**warned to looke to their Challenge**"; "their lawfull challenge were then by the said **Justices** allowed (as this def[endan]t beleveith)."
- ★ **The indictment clause (b6):** "aboute wh[at] tyme a bill of Inditem[en]t was p[re]ferred" (grid "Judgment was given" retracted); the indicttee list (see A11 ✓); murder place "**at a place called the Rodwha[?]**" (grid blank — NEW strokes); confederacy-denial completes ("or otherwise bound them selu[e]s each to other to hould[e] together in [a]ll acc[i]ons[?]").

Phase log

- 2026-07-02: ledger opened; Phase A bands s9p_b1..b9 + Phase C zooms zg* (18) cut to scratchpad. Phase B recut command recorded above (do AFTER a /compact — 48 cells ≈ 5.5 MB payload).
- 2026-07-02: **Phase A COMPLETE** (9/9; _WORKING_009_TRANSCRIPTION.md) — headline: "Bill or informac[i]on"; "fewer found[?]" ; the STRUCK REWARD QUESTION partially recovered (D12 ○→partial); Art-15 interlines ("or gave yo[u] any of the said Instruc[i]ons", "hereafter"); "the said Rees ap Evan"; "ffirst attached"; margins 15/16 read directly; **the instrument is UNSIGNED** (blank foot confirmed to the stamp zone).
- 2026-07-02: **Phase C COMPLETE** (21 zooms; "Verdicts (Phase C zoom reads)" above) — headline: "his Councell" (C1 ✓); the bill drawn "by this ex[aminan]t" (D3 ✓); the marginal note's struck quantifier (D4); "Tristram" (D6 ✓); "-tenthe" order date (B7); the Art-1/2 boundary correction (D11 ✓, applied to 008 + companion).
- 2026-07-02 (post-/compact): **Phase B COMPLETE** (48/48 cells, 010 rows 1–12; "Verdicts (Phase B cell reads)" above; readings in _WORKING_010_TRANSCRIPTION.md PRECISION layer; folded into the companion 010 section, reconciliation table, header/footer blocks). **ALL THREE PHASES DONE — the whole file is Fable-5-read. This ledger is the standing TNA-commission brief; next steps are (a) user adjudication and (b) the professional transcription order (include: 007 verso, 008 tear-zone signature check, multispectral on D7/D8/D14 + the struck zones, the castle-name conflict, and the Phase B items above).**
- 2026-07-03: **(a) USER ADJUDICATED** — approved the surfaced record; authorized quoting on his own authority with disclosure. **(b) TNA ORDER SENT** — the user emailed The National Archives (commission pending; this ledger remains the brief). **(c) ARTICLE FOLD-IN EXECUTED** — THE_TWO_LOCKS.md V.B: three new STAC paragraphs (file / instrument / answer — the fear clause ⇔ *ad deterrendos* + "callinge in question" ⇔ "drawn in question") + the eponym ¶ rewritten (two executed men), nn. vst1–vst4 + vr9, apparatus 224, docx 149,057 b verified. **When the professional transcription returns: conform the article's STAC readings (vst1–vst4, vr9), lift provisional flags, surface variances to the user first.**
- 2026-07-07: **PASS 4 OPENED (user-directed: completeness + fidelity on 008–010) — enhanced toolchain built + PILOT RUN.** New tool _crop_stac_v2.py (pure PIL/numpy; flat-field division → percentile stretch → CLAHE → unsharp; renders nat/eG/eB/eR/eM; PNG option; _manifest.jsonl logs every tile's source-pixel rect = computable coverage proof). **Key deficiency found and now correctable: the 008/009 sweeps (and 001–007 bands) were read BELOW native resolution** (full-width bands capped at 2200px = 0.75–0.82× of the 2862/2948/≈2700-pixel-wide scans); only 010's quarter-columns were native. **Pilot verdicts (3 zones):** (1) △→✓ **CASTLE NAME RESOLVED at 2× native+eB: "some p[ar]te of the Castell of Bewmar[e]s"** — the initial letterform matches the double-curved secretary **B** of "Bulkeley" two lines below IN THE SAME FRAME and is distinct from the single-bowl p of "p[ar]te" in the same line; the band-scale "Penmar—" illusion explained (B's double curve degrades to P+minim at 0.77×). Beaumaris now letterform-grounded, not just zoom+history. TNA check downgraded from mandatory to routine confirm. (2) **010 foot subscription (stained zone):** nat@1.5× advanced it (large flourish left-of-center + a second cluster now visibly structured) but eB AMPLIFIES stain texture — lesson: stained zones want nat@2× + eR (red channel: brown stains lighten, iron-gall stays dark; render added to the tool). Zone remains professional-grade. (3) **008 caption (faint/clean):** eB clear win — now clean: "to be mynistred agaynst," **"remayninge prisoner in the ffleete** [to be ex]amin[ed]," and the order-date ordinal **"-tenthe" re-**

confirmed (short form; "twentieth" again disfavored) at the best resolution yet; a possible further date in the caption's 4th line flagged ("the vj[th?] of [?]").

- **PASS 4 CAMPAIGN (queued; fresh /compact cycles):** Phase 4A = 008 half-column native+ sweep (L/R × ~12 bands, 25% overlap, q90, nat+eB), transcribed LINE-INDEXED into _WORKING_008_LINE_INDEX.md, delta-logged vs the existing transcription. Phase 4B = 009 same (~9×2). Phase 4C = 010 completeness audit: (i) three vertical SEAM-STRIPS (x≈0.27/0.52/0.755 full-height) to catch seam-stitch errors, (ii) eR/nat@2× re-renders of ALL remaining [?] tokens + every zone previously declared blank (a "blank" is a claim — verify it), (iii) rows 13–16 enhanced spot-verification. Phase 4D (optional, user's call) = 001–007 uniformity upgrade (per-membrane line-indexed extracts + enhanced spot-checks; their working files exist as the two deposition-grouped files but are thinner per-membrane than 008–010's layers). MB protocol v3: tiles are heavier (200–700KB) → 1–2 reads/message, flush per band, /compact per column.
- **2026-07-07: PHASE 4A COMPLETE — 008 re-swept L/R half-columns at ~1.12× native (24/24 bands, nat + selective eB), first LINE CENSUS of the leaf: 86 written lines (3 caption + 79 article + 4 short runover tails L41/L48/L63/L80 — blank right halves confirmed), 19-item delta log in _WORKING_008_LINE_INDEX.md.** The user's completeness instinct validated: the 0.77×-native 07-02 sweep missed revision events and letterform detail. **NEW vs 07-02:** Art-4 opens "And whose" (openers alternate 4 And · 5 Item · 6 Item · 7 And · 8 Item · 9 And · 10 And · 11 And); NEW INTERLINE "or to be of Counsell" (L23 — 07-02 took it for line text); NEW STRUCK token "~~before?~~" at L32-end (strike zone spans the L32/L33 break: three struck tokens); probable NEW strike "~~Counsell~~" in the L40 fee clause — which is also a physically SQUEEZED line (active revision); estate list has FOUR members ("lande[s] ten[emen]t[e]s goods and cha[ttells]"); "acquitted" firmed; "**Trustram**" (3 views; 07-02 "Tristram" was normalization); the executed man in THREE-ELEMENT form "Willia[m] ap Res [ap] W^m" (L12); L79 connector "taken & to be taken" (3 renders); "desired" (L67); "sixt of October" spelled out (L52). **FLAGS RESOLVED:** "and talke" ✓ (07-02 right); "Coñ" = *Comitatu*/Countie abbreviation (not "Comote") + "Bulkl[e]y" surname read at L71; liverye-interline caret at L66 between "you"/"And" (no caret near "Towneley"); "And from whome" ✓; empty "(" after "thereof" is real (L25); "lettre" splits lett|re across L72/L73. **TOP NEW TNA ITEMS:** (i) **L75: 2–3 unresolved main-line tokens between "Bulkeley" and "and of whome" — name-like, "[Ro?]rland [T?]horp[?]"-class — possible SECOND unrecorded intermediary** (with "[K/H]endr[i/y]ck," L31 interline); (ii) the Lloyd patronym letterform (L1/L8 "Ev[a]n" vs "hu"-like ascender — brothers' shared patronym); (iii) L81 opener "[and?/But?]" — whether the peticon/sureties material is Art. 12 or Art. 11's tail (009's margin "14" still fixes the instrument at 16); (iv) the L33 struck tokens + L40 ~~Counsell~~ extent; (v) L39 word order ("have [so/yo^u] shall or receaved"); (vi) foot lines L84–L86 tails ("been or made promise to be yo[ur] suerties" recovered; L86 under the stain); (vii) "[one?/yo[u]?] John" blot at L25. **TNA slip decoded (both faces): "STAR CHAMBER PROCEEDINGS, JAMES [I] — Bundle 2[03], File [3]8."** Fold-in to companion/baseline QUEUED (after 4B/4C or on user call). - **2026-07-07: PHASE 4B COMPLETE — 009 re-swept L/R half-columns at native+ (text zone b1–b6 both sides + foot verification to the leaf's true bottom), first LINE CENSUS: 31 written lines (both halves agree), 12-item delta log in _WORKING_009_LINE_INDEX.md. Crops now PRESERVED in-repo (user directive): crops/stac_p4a/ (copied from scratchpad) + crops/stac_p4b/ (cut direct). ★★ **HEADLINE FIND — THE FILE'S ENDORSEMENT/DOCKET, previously unimaged** (every prior sweep sampled y ≤ 0.68; a blue-channel ink-screen over the foot bands flagged the bottom-left corner): FOUR LINES written rotated 90° along the leaf's edge — "Ex[?] Townley / et aī p[er] ordin[em] / Ad**

sect[am]?/Adv[er]s[us]? Barker ar[migeri] / T. 5. Ja[cobi] — (a) the examinations docketed *per ordinem* (matching 008's caption-order clause); (b) **"ad sect[am] Barker ar[migeri]"** is the paleographic lead (long-s, no u) — if it stands, the docket styles the cause as **Barker's own suit against Towneley et al.** — a THIRD party-styling stratum vs 001's Latin caption ("Lloyd v. Barker & others") and the TNA catalogue (*Lloyde v. Lewys*) — **USER + TNA before any article use**; (c) **"T. 5. Ja."** = **Trinity term 5 James I (1607)** — the file self-dates to the *Floyd v. Barker* term. Zooms: `crop_p4b009_endorse_cw[_eR].jpg`. **Other 4B gains:** "M[r] Barker" FIRM inside the STRUCK reward question (was "Bar[ker?]", its layout = two cramped lines squeezed in then struck whole; "or promise ^{you} hereafter" (07-02's "here[a]fter" parse retracted); the fewer/**favoured** crux RE-OPENED (native+ leans "favor found"; "[C]irc[uit]s" unconfirmed); "through his **s[e]ruice**" leads; name-vowel flags "L[a]ighton"/"Rees ap Ev[o]n" (join the 008 patronym cluster); margin numerals ride LEVEL with openers (vs 008's one-below habit — two scribes corroborated); NEW small interline above L2's head; census 31. **METHOD NOTE:** the endorsement proves rotated edge-writing escapes band grids — **Phase 4C now includes a full-extent foot/edge ink-screen + corner zooms on ALL TEN membranes** (blue-channel screen; caveat: purple/pencil read light in blue — stamp zones need eyes).
