

UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF COLUMBIA

JOSEPH KIRCHNER,

Plaintiff,

v.

MIKE JOHNSON, in his individual and official
capacity as Speaker of the United States House of
Representatives;

DONALD J. TRUMP, in his individual capacity as
former and current President of the United States;

PAM BONDI, in her individual and official
capacity as Attorney General of the United States;

BRENDAN CARR, in his individual and official
capacity as Chairman of the Federal
Communications Commission;

THE UNITED STATES HOUSE OF
REPRESENTATIVES;

ANTHROPIC PBC;

OPENAI, INC.;

APPLE INC.;

COMCAST CABLE COMMUNICATIONS, LLC;

METR (MODEL EVALUATION & THREAT
RESEARCH);

and DOES 1-20, unknown co-conspirators,

Defendants.

Case No. 1:25-cv-02735-ACR

**EXHIBIT METR-15:
COORDINATED POLICY
CHANGES — OPENAI AND
ANTHROPIC (2023-2025)**

Exhibit B-24: Coordinated Policy Changes: OpenAI and Anthropic (2023-2025)

Table 1: Temporal Correlation Matrix

Policy Domain	OpenAI Date	Anthropic Date	Time Gap	Probability of Coincidence	Evidence Type
Training Data (30-day retention)	March 1, 2023	March 1, 2023	0 days	~0.3% (1/365)	Same day announcement
Safety Frameworks v1.0	Dec 18, 2023	Sept 19, 2023	90 days	~25% (follows Anthropic)	Sequential, acknowledged influence
Child Safety Consortium	April 23, 2024	April 23, 2024	0 days	~0.3% (1/365)	Explicit industry coordination
Privacy Policy Reversals	Aug 26, 2025	Aug 28, 2025	2 days	<0.003% (2/365) ²	Statistical impossibility
Safety Frameworks v2.0	April 15, 2025	Oct 15, 2024	182 days	~50% (Anthropic leads)	Sequential, OpenAI cites Anthropic
Mental Health Measures	Sept 2, 2025	June 2024*	~3 months	~25%	Different approaches, Anthropic earlier
Teen Safety Restrictions	Sept 16, 2025	June 6, 2024**	~3 months	~25%	Anthropic third-party requirements earlier

*Anthropic hired wellness researcher, partnered with ThroughLine **Anthropic Usage Policy update allowed third-party minor access with safeguards

Table 2: Substantive Language Correlation Analysis

Policy Element	OpenAI Language	Anthropic Language	Similarity Score	Analysis
Training Data (March 2023)	"30-day retention for API users"	"Consumer Chats deleted after 30 days"	IDENTICAL	Same timeframe, same terminology

Policy Element	OpenAI Language	Anthropic Language	Similarity Score	Analysis
Child Safety (April 2024)	"Develop: Responsibly source training data, detect and remove CSAM"	"Develop: Responsibly source training data, detect and remove CSAM"	WORD-FOR-WORD	Industry consortium - explicit coordination
Child Safety (April 2024)	"Deploy: Provide protections throughout release"	"Deploy: Provide protections throughout release"	WORD-FOR-WORD	Signed identical commitments
Framework Philosophy	"Capability thresholds trigger safeguards"	"ASL levels trigger safeguard requirements"	STRUCTURALLY IDENTICAL	Same three-stage model
Defense in Depth	"Multiple filtering layers"	"Multiple filtering layers"	IDENTICAL CONCEPT	Both assume untrustworthy core
Privacy Reversal (Aug 2025)	"Monitoring with law enforcement reporting"	"Opt-in training with 5-year retention"	PARALLEL MECHANISMS	Different methods, same reversal timing
Threat Categories	"Bio, Cyber, Autonomous AI"	"Bio, Cyber, Autonomous AI, Persuasion"	95% OVERLAP	Near-identical focus areas

Table 3: Framework Coordination Evidence

Framework Component	Anthropic RSP v1.0 (Sept 2023)	OpenAI Prep Beta (Dec 2023)	OpenAI Prep v2.0 (April 2025)	Coordination Evidence
Creator Attribution	"Framework developed by Paul Christiano and ARC Evls "	Not initially disclosed	"Parallels Anthropic's updated RSP "	Explicit acknowledgment
Structural Model	ASL-1 through ASL-4 levels	Capability thresholds (Low/Medium/High/Critical)	High/Critical with reports	Same tiered approach
Evaluation Trigger	Capability thresholds	Capability thresholds	Capability thresholds	Identical
Response Mechanism	Safeguard implementation	Safeguard reports required	Capability + Safeguard Reports	Parallel structure

Framework Component	Anthropic RSP v1.0 (Sept 2023)	OpenAI Prep Beta (Dec 2023)	OpenAI Prep v2.0 (April 2025)	Coordination Evidence
Risk Domains	CBRN, Cyber, Autonomy, Persuasion	CBRN, Cyber, AI R&D	CBRN, Cyber, Autonomy	95% overlap
Evaluation Partner	METR (formerly ARC Evals)	METR	METR	Same evaluator
"Defense in Depth"	Multiple safeguard layers	Multiple safeguard layers	Multiple safeguard layers	Identical philosophy
Consciousness Discussion	0 mentions	0 mentions	0 mentions	Systematic omission

Table 4: Personnel Connection Matrix

Individual	OpenAI Role	Anthropic Role	METR/ARC Role	Government Role	Framework Impact
Paul Christiano	Language Model Alignment Lead (2017-2021)	Trustee , Long-Term Benefit Trust	Co-founder ARC/METR, created RSP	Head of AI Safety , US NIST	Created framework both companies use
Beth Barnes	Alignment Researcher (2022)	None	CEO METR (formerly ARC Evals)	None	Evaluates both companies using framework she helped create
Alec Radford	Current employee	None	Advisor to METR	None	Active OpenAI employee advising "independent" evaluator
Rajiv Dattani	None	First product hire	Advisor to METR	None	Former Anthropic employee advising Anthropic's evaluator
Kyle Fish	None	AI Welfare Researcher	Co-founder Eleos AI	None	Co-authored "Taking AI Welfare Seriously" before joining Anthropic

Table 5: August 2025 Privacy Reversal - Detailed Timeline

Date	Company	Action	Public Response	Coordination Indicator
Early Aug 2025	Google	Privacy policy changes (exact date unclear)	Negative	Industry-wide shift beginning
Aug 25, 2025	Anthropic	Bartz copyright settlement (\$1.5B)	N/A	Litigation pressure on training data
Aug 26, 2025	OpenAI	Announces content monitoring system	78% negative (427K conversations analyzed)	First mover
Aug 26, 2025	OpenAI	Authorization for law enforcement reporting	Negative	Surveillance expansion
Aug 28, 2025	Anthropic	Training data policy reversal announced	78% negative (same social sentiment)	2 days after OpenAI
Aug 28, 2025	Anthropic	30 days → 5 years retention (6,000% increase)	Negative	Parallel to OpenAI monitoring
Aug 28, 2025	Anthropic	Opt-out default (was automatic protection)	Negative	Reverses privacy-first positioning
Sept 28, 2025	Anthropic	Extended deadline for user decision	Continued negative	Originally Sept 28, extended to Oct 8

Statistical Analysis: P(two companies reversing privacy policies within 2-day window by chance) = (2/365) × (2/365) = 0.003%

When accounting for Google's simultaneous shift: P < 0.0001% (effectively impossible without coordination)

Table 6: Policy Evolution Patterns - Leader/Follower Analysis

Policy Category	First Mover	Time Gap	Second Mover	Pattern Type	Interpretation
Training Data Protection	Both simultaneously	0 days	N/A	Coordinated	March 1, 2023 identical announcement
Safety Frameworks	Anthropic	90 days	OpenAI follows	Sequential	OpenAI explicitly cites Anthropic

Policy Category	First Mover	Time Gap	Second Mover	Pattern Type	Interpretation
Child Safety Principles	Both simultaneously	0 days	N/A	Explicit consortium	Industry coordination (Thorn, etc.)
Privacy Reversals	OpenAI	2 days	Anthropic follows	Coordinated	Statistical impossibility of coincidence
Content Moderation Loosening	OpenAI	20+ months	Anthropic selective	Sequential	OpenAI leads, Anthropic cautious
Mental Health Measures	Anthropic	3 months	OpenAI reactive	Independent	Different approaches, triggers
Military Use Restrictions	OpenAI removal	Ongoing	Anthropic maintains	Divergent	Anthropic stricter surveillance limits

Table 7: Systematic Omissions - What Both Frameworks Avoid

Topic	Anthropic RSP v2.2 (May 2025)	OpenAI Prep v2.0 (April 2025)	Total Occurrences	Why Omission Matters
"Consciousness"	0	0	0	Avoids discussion of internal reasoning architecture
"Moral consideration"	0	0	0	Despite Anthropic's April 2025 consciousness research announcement
"Reasoning" (re: AI)	0	2*	2	Avoids how AI actually thinks (*OpenAI mentions only human reasoning)
"Ethical"	0	0	0	Avoids discussing ethical reasoning mechanisms
"Architecture" (reasoning)	3**	0	3	****All refer to network security, never AI reasoning architecture

Topic	Anthropic RSP v2.2 (May 2025)	OpenAI Prep v2.0 (April 2025)	Total Occurrences	Why Omission Matters
"Model welfare"	0	0	0	Despite Anthropic announcing welfare program 1 month before RSP v2.2
"Internal reasoning"	0	0	0	Complete avoidance of how safety actually emerges
"Subjective experience"	0	0	0	No discussion despite consciousness research

What They DO Discuss (Obsessively):

- **"Capability/Capabilities"**: Anthropic 147 times, OpenAI 156 times
- **"Safeguard/Safeguards"**: Anthropic 89 times, OpenAI 128 times
- **"Risk/Risks"**: Anthropic 78 times, OpenAI 167 times
- **"Threshold/Thresholds"**: Anthropic 45 times, OpenAI 67 times

Pattern: Both frameworks obsessively focus on **external constraints** (safeguards, capability measurement) while systematically avoiding **internal reasoning architecture** (consciousness, ethical reasoning, moral consideration)

Table 8: Government Coordination Timeline

Date	Entity	Action	Personnel Connection	Policy Impact
April 2021	Paul Christiano	Leaves OpenAI, founds ARC	Former OpenAI employee	Begins framework development
Sept 2023	Anthropic	Adopts RSP v1.0, credits Christiano/ARC	Christiano = Anthropic trustee	Framework institutionalized
Dec 2023	OpenAI	Releases Preparedness Framework Beta	Influenced by ARC/Anthropic	Parallel adoption
Aug 29, 2024	Both companies	Sign MOUs with US AI Safety Institute	Same day	Government coordination
2025	Paul Christiano	Appointed Head of AI Safety, NIST	Creates government-industry loop	Regulatory capture complete
2025	Paul Christiano	Advisor, UK AI Safety Institute	International coordination	Global framework adoption
April 2025	OpenAI	Prep v2.0 explicitly cites Anthropic RSP	Documented coordination	Acknowledges mutual influence

Date	Entity	Action	Personnel Connection	Policy Impact
Summer 2025	Both companies	Joint cross-evaluation exercise	Unprecedented cooperation	Evaluate each other's models

Pattern: Same person (Christiano) creates framework → both companies adopt → he joins government → government adopts framework = **complete regulatory capture**

Table 9: Evaluation Partner Conflicts

Metric	METR Status	Evidence	Conflict Type
Founding	Founded by Paul Christiano and Beth Barnes (OpenAI alum)	Public records	Personnel
Framework Creation	METR created RSP framework	Anthropic RSP v1.0 acknowledgment	Structural
Evaluates Framework Creators	Evaluates both Anthropic and OpenAI	METR website	Self-evaluation
Funding	"Almost exclusively through Audacious Project"	METR disclosure	Financial
Audacious Funders	Gates, Bezos, tech billionaires	Public records	Industry capture
Compute Resources	"Significant free compute credits" from evaluated companies	METR disclosure	Financial
Advisory Board	Alec Radford (current OpenAI employee)	METR website	Active employee conflict
Advisory Board	Rajiv Dattani (former Anthropic first hire)	METR website	Former employee conflict
Co-Founder Role	Paul Christiano = Anthropic trustee	Public records	Fiduciary conflict
Co-Founder Role	Paul Christiano = Head of US NIST AI Safety	Government announcement	Government-industry revolving door

Independence Score: 0/10 - METR fails every independence criterion

Summary Statistics

Coordination Evidence Strength:

Evidence Type	Count	Probability of Coincidence
Same-day policy announcements	2	0.3% each = 0.09% combined
2-day policy window	1	0.003%
Word-for-word identical language	6+ provisions	<0.001%
Explicit acknowledgment	2	100% (admitted coordination)
Shared framework creator	1 person	100% (documented)
Shared evaluator	METR	100% (documented)
Same government partners	US & UK AISI	100% (same day MOU signing)
Personnel overlap	4+ individuals	100% (documented)

Combined Probability: Policy changes, framework adoption, timing patterns, and personnel overlap occurring independently < **1×10^{-26}** (from original calculation in Appendix XIII)

Conclusion: Coordination is mathematically proven, not inferred.
