STATEMENT OF EDITORIAL METHOD

(a) What this document is. The reader-facing edition of membrane 001: every census line of the leaf, line by line, each tied to the image tile that shows it, with the author's diplomatic determination and a modernized rendering. It is assembled from the corpus's adjudicated layers — the Phase 4D line index (_WORKING_001_LINE_INDEX.md), the baseline deposition transcription (_WORKING_TOWNELEY_DEPOSITION_001-003L.md), and the precision-pass zoom verdicts (_PRECISION_PASS_LEDGER.md) — with **every uncertainty flag preserved**. It introduces no new readings. Where layers disagree, the disagreement is either shown in the text itself (true contests carry both readings) or resolved by the method's escalation ladder (zoom outranks band level, methodology §9) with the losing layer's reading cited in the entry's note — and where the resolving zoom belongs to a regeneration-class series (tiles-as-read lost, methodology §15.2), the entry says so.

(b) Conventions. The full table is the renderer's legend page and methodology §6. In brief: [?] uncertain · [...] supplied/illegible · word scribal interlineation · struck text is struck in the manuscript · <x> expanded letterform · △ lean / △△ contested · ✓/✓✓/✓eB sighted/double-sighted/survives enhancement · X scan-limited. Scribal spelling is preserved exactly; nothing is silently normalized. One declared exception, in the Modernized layer only: the complainant's surname, which the leaf spells variously (the LI/FI variance is itself a live arbitration item — Open Items, no. 5), is normalized to **Lloyd** in the aid layer; the diplomatic layer preserves each site's form.

(c) How to read a line entry. The label is membrane.line (001.L18 = membrane 001, deposition line 18; c1–c8 = the Latin caption block; L1b = a right-half-only formula line). Joint entries (001.L8–L9) are the addressable unit where two physical lines carry one unbroken clause; a single-line ID inside a joint range resolves to the joint entry. The reading is the stitch of the left and right half-column tiles for the band named in the note: **b3** means crops/canon/crop_canon_m001_L_b3.jpg || crop_canon_m001_R_b3.jpg (add _eB for the enhanced render). Open any named tile and the line is before your eyes; the manifest row for that tile gives the exact pixel rectangle of the master it was cut from, and the master's checksum is in _FIXITY_SHA256_SOURCES.txt — the chain from this page to The National Archives' record copy is verifiable at every link.

(d) Authorization state. The author adjudicated and authorized quotation with disclosure on 2026-07-03 (THE_TWO_LOCKS.md n. vst1 is the disclosure formula). Only the diplomatic layer may ever be quoted; △ readings only with flags intact; △△ readings are described, never quoted as readings. All names remain provisional until the commissioned TNA transcription returns.

Modernized (editorial aid — never quotable): To the 4th interrogatory: Rees ap Jevan Lloyd came to him bringing a great roll of [parchment] containing the substance of divers [foul] misdemeanours against the said Mr Barker, the effect whereof was afterwards comprised in the said bill. At which time Jevan Lloyd told this examinant that he came from his [counsel — leading reading], and that he had a purpose to have a bill drawn according to those instructions, and to retain two other counsellors besides those with whom he had been. Whereupon this examinant read over the instructions contained in the said papers, and then told the said Jevan Lloyd [or, per the L24 interline: replied to this examinant] that it did not appear thereby that he was a party grieved, and that the substance of the bill to be drawn on those matters would be especially in the nature of a conspiracy; and therefore this examinant advised [him — per the leading reading, to retain Mr Montague as his counsel], with whom this examinant might confer for the drawing up of the said bill.

REVISION STRATUM AND PHYSICAL RECORD

Census: 8-line Latin caption + 32 deposition lines (+ the right-half-only formula line L1b). Interlineations: a[s/t] a Counsellor at Lawe (L3) · [?] Recorder of London (L3/L4) · his ma[jes]t[ies] hono: (L5) · [con]te[y]ninge (L12) · [?] (L13) · to this exami[nan]t (L24) · that caret (L25) · ~~Ch[?] [?]e[?]a[?]~~ struck interline (L29). Strikes: ~~[E?]dward[?]~~ (L2) · before Barker (L7) · at L12 · the L29 stack · the stroke through Ll[o]ud (L7, classification open). Census agrees across both half-column sweeps and with the baseline — **no line lost or gained; membrane 001's text is COMPLETE.**

Physical: ragged torn top edge with repair patch (upper-left); circled graphite "2" = modern foliation (left margin, b3); wax/repair residue at extreme left edge (b4); torn notch + repair tab at the foot (b8). The leaf's verso carries docket-class writing (Phase 4C ink screen) — a TNA dorse-imaging order stands; this transcript is the recto only.

OPEN ITEMS ON THIS MEMBRANE

1. **OPEN** — **the caption day-number (c1):** this leaf reads {vij, xj}; the 003R margin reads x[v?]j Junij — one minim decides whether the two examinations were same-dated. Ledger B6; TOP TNA.
2. **LEAN** — **L18 "his [C]ounsell" over "Countrey":** clear double-l terminal, no y-descender, corroborated by the following clause ("to retaine two other Councillors besides those w[i]th whome he had ben"); the Marches-Council and Welsh-idiom readings retire. Professional confirm.
3. **OPEN** — **L29 the willed-clause:** letterforms read the advice as retain-Montague, chaining into 002L's opening; the double revision stack (strike + struck interline) is unresolved. TOP TNA.
4. **OPEN** — **L30 the foot name token:** candidate [B]ulkl[e]y[?] — would be Bulkeley's first entry on this leaf; not firmed. TOP TNA.
5. **OPEN** — **L7 the Lloud stroke:** crossbar vs strike vs underline; the same phenomenon class as the baseline's ~~Flood~~; bears on the Floyd/Lloyd anglicization the print caption made canonical. TNA.
6. **CONFLICT** — **interline attachments (L3–L5):** two insertions attach differently between the 07-02 and 4D views; no word differs. TNA.
7. **VARIANT** — **low weight:** L15 s[ai]d/[sam?]e; L16 zone assignment; L32 drawinge/fram[in]ge. TNA sweep-up.
