

MEMBRANE 009 — LINE INDEX (PASS 4B, NATIVE+ HALF-COLUMN RE-SWEEP, 2026-07-07)

Per-leaf line index (census · revision stratum · eB dispositions · delta log)

Corpus	02_STAC_8_203_38
Source	_WORKING_009_LINE_INDEX.md
Integrity	sha256 6f8ff698a8f6 · rendered 2026-07-09
Status	Derived render for review. The markdown source file governs; the modernized layer is never quotable; all readings are provisional pending the commissioned professional transcription (names above all). Canonical apparatus: _PRECISION_PASS_LEDGER.md; method: TRANSCRIPTION_AND_ANALYSIS_METHODOLOGY.md.

HOW TO READ THIS RENDER (CONVENTIONS LEGEND)

struckthrough	struck in the manuscript (source: ~text~)
^{superscript}	scribal interlineation or raised letters (source: ^text^, m^r)
serif (Cambria) span	diplomatic text quoted inline (source: `text`); the type shift marks the source-text voice; conventions inside are rendered too
boxed serif panel	diplomatic transcription block
gray italic [...]	pass-annotation — editorial apparatus, NOT manuscript text
CONFIRM UPGRADE LEAN CONFLICT	delta-log verdict class: green = confirmed/convergent · blue = upgraded/new · amber = lean/open/variant · red = retraction/conflict
[?] / [...] / [] · « » · · △ ✓ eB X	sigla printed verbatim per methodology §6/§9
★	

Purpose (Phase 4B): completeness + fidelity re-pass of 009 at native-plus resolution, by the Phase-4A method. The 2026-07-02 precision sweep (_WORKING_009_TRANSCRIPTION.md, 9 full-width bands at q84, x 0.06–0.98 of the 2948×6794 leaf) ran below native width; this pass reads L/R half-columns at ~1.09–1.12× native with the v2 restoration renders, line-by-line with line numbers, and logs every difference in the **DELTA LOG** at the foot.

Tiles: crops/stac_p4b/crop_p4b009L_b1..b12[_eB] (x 0.05–0.55) and crop_p4b009R_b1..b12[_eB] (x 0.45–0.98), y 0.02–1.00, 25% overlap, q90; manifest crops/stac_p4b/_manifest.jsonl. **Crops now saved to the repo crops/ dir (user directive 2026-07-07: preserve all crops as we work; stac_p4a/ copied in from the session scratchpad).** Written zone ≈ b1–b6 (text ends ≈ src y 3193); b7–b12 = the blank foot + PRO stamp — blank-zone verification: pixel-statistics screen over the foot tiles, direct reads on any band showing signal + spot reads regardless (a "blank" is a claim).

Conventions: as _WORKING_008_LINE_INDEX.md — diplomatic; [?] uncertain · [...] / [] supplied/illegible · word interlineation · ~~text~~ scribal strike · «word» in-line later-ink insertion · | = the half-column cut. Line

numbers = the leaf's written lines from the first written line (L1 = the "ffrom." runover). A reading is trusted only if it survives nat + the enhanced render consulted.

Baseline to reconcile (07-02): opens mid-sentence "ffrom. / W[ho]e gave you Instruciones..."; margins 14/15/16; the STRUCK REWARD QUESTION (ledger D12, partial); "maynetenaunces or moneys"; Art-15 interlines "or gave yo[u] any of the said Instruc[i]ons" + "here[a]fter"; "besides the p[lain]t[iff] Rees"; Art-16 "the said Rees ap Evan," "ffirst attached," "you" dittograph, "an[ly]→e[i]ther"; Burkle/Buckley spelling drift; UNSIGNED blank foot.

LEFT HALF-COLUMN (x 0.05–0.55)

Band L1 (src y 135–827) — Art. 13 opens mid-sentence (the 008 runover + the Instructions question)

(different hand/ink family from 008 — browner ink, rounder secretary; the leaf-head tear and repair-tissue in frame, top-left)

- **L1** | **ffrom** . whoe gave you Instruciones to in[ser] | *(the mid-sentence opening reconfirmed: "ffrom." closes 008's torn question on this leaf's first line, and the Art-13 body starts on the SAME line)*
- **L2** | that [ro]beries [&?] Burglaries were **f[e/a][w/v]or fou[nd?]** | *△ the fewer/favoured crux at native+: the token reads "fewor"-like — "fewer found" (07-02 precision) and "favor found"/"[favoured]" (first sweep) BOTH still letterform-live; TNA arbitrates. △ possible small INTERLINE above this line's head (raised "et"-like cluster over "that") — eB check below.*
- **L3** | Barker riding[e?] in those Countre[y]s and t[?]|
- **L4** | in Chancerie[o?] after Judgment and ex[?]| *(terminal vowel of "Chancerie" reads o-ish — small flag)*
- **L5** | the other Justice was vsed disgra[?]| *(the first Leighton naming sits on the R half of L4/L5)*
- **L6** | and that M[r] **Leighton** did deliver [?]|
- **L7** | wearie of ^{his} place . whoe gave [?]| ✓ the "his" interline confirmed in position (caret between "of" and "place")
- *(L8 opens at the band foot — read in L2's overlap)*
- *(L1 eB pass — the leaf is mottled; eB amplifies texture but ink holds: (a) the L2-head interline is REAL* — present in both renders, one short raised token ("et"-like strokes) above "that [ro]beries"; unresolved, NEW vs 07-02, TNA. (b) the fewer/favoured crux: eB's vowel cluster leans "-ov/-ow-" — "favor found"-compatible, partially rehabilitating the FIRST sweep's "[favoured?]" against 07-02's "fewer found"; both live, TNA. (c) "Chancerio" terminal-o holds in eB — small flag.)**

Band L2 (src y 551–1382) — Art. 13 tail: THE STRUCK REWARD QUESTION (two cramped lines); margin "14"; Art. 14

- **L5–L7** re-read in overlap — as Band L1. *△ L7 refinement: the "his" of "of ^{his} place" reads closer to IN-LINE after a gap in this view, with a blot-like mark above — "his" (07-02) vs "of [gap] his" both live; eB below.*
- **L8** | instrucc[i]ons[?] name him or them tha[t]| *(the "instrucc[i]ons" cluster carries an odd terminal flourish — small flag)*

- **L9** (CRAMPED small-script line — the struck reward question, first line) | ~~anie r[e]ward tendred[?]~~ or ~~[pro]m[?]ed[?]~~ | (bar visible in nat; eB confirm below)
- **L10** (CRAMPED small-script line — second line) | ~~and [?] what was [the?] cause [?]~~
- **L11** (margin "14" at far left, beside THIS line) | [**It[e]m?**] what maynetenaunces or mone[ys]|  the opener glyph reads "ffrom"-like at nat — "It[e]m" expected (07-02); eB check. ✓ "**maynetenaunces**" holds at native+ (4th independent view).
- **L12** | S[i]r Richard **Burkli[e/o]** or of any of h[is]| (the leaf's Burkli variant ✓; terminal vowel o-ish)
- **L13** | Burkli[e/o] since your imprisonment in|
- **L14** | l[ett]res[?] to any p[er]son or p[er]sons since your|
- **L15** (band foot, partial) | did , what was the Contents theore[f]| (Art. 14's letters clause complete: "did you write any lettres ... since your imprisonment, and if you did, what was the Contents thereof" — 07-02 structure ✓)
- (L2 eB pass: (a) L11 opener RESOLVED = "Item"* — the l-hook reads clean in eB; my nat "ffrom"-impression retracted; margin numeral "4" ("14") clear beside it. (b) the L9/L10 STRIKE BARS partially confirmed in eB (dark strokes through the "r[e]ward tendred[?]" cluster; mottle prevents full bar-tracing) — the cramped+struck state stands; tokens still "anie r[e]ward tendred[?] or [pro]m[?]ed[?]" / "and [?] what was [the?] cause [?]" — multispectral/TNA item as before. (c) L7's "his": the raised mark between "of" and "his place" may be a blot rather than a caret — "his" (07-02) vs in-line "his" both kept, TNA. (d) L14's "l[ett]res[?]" cluster stays odd ("leares"-form) in eB — abbreviated "lres" likeliest; flag kept.)*

Band L3 (src y 1106–1937) — Art. 14 tail; margin "15"; Art. 15 body (the Burkli list, left halves)

- **L13–L15** re-read in overlap. ✓✓ **L14's odd cluster RESOLVED**: the "leares/tears" appearance is "**l[ett]res**" written with the standard bar-abbreviation THROUGH the ascenders (Hres) — the "strike-like" bar is the abbreviation mark, not a deletion; 07-02's "l[ett]res[?]" confirmed, flag lifted.
- (the Art-15 INTERLINE's head "or gave y[?]" enters this half's top-right edge, riding above the Item line — body on the R half; position confirms 07-02's "or gave yo[u] any of the said Instruc[i]ons")
- **L16** (margin "15" clear at far left, beside THIS line) | It[e]m who did procure . aduise or [in]| (the cut token opens in/m-like — "intreate" expected)
- **L17** | Rees to drawe , and be a[s] Councelle in[?]| (the article's named exclusion "besides the p[lain]t[iff] / Rees" — "Rees" opens this line; "a[s] Councelle" as 07-02)
- **L18** | did S[i]r Richard Burkli[e/o] Knigh[t] [W?]|
- **L19** | Burkli[e/o] Trustram Burkli[e/o] La[uncellott]| ✓ "**Trustram**" u-bowl on THIS leaf too — matches Phase 4A's 008 finding; the spelling is the scribes', both hands
- **L20** | them intreate or wishe you to dra[we]|
- **L21** | or any of them give you any ffee[s]|
-  (hand-note: the Burkli- terminal vowel reads -o-like consistently* in this leaf's rounder hand (L12/L13/L18/L19 x2) — "Burklio" vs 07-02's normalized "Burklie"; one letterform habit, flagged once — TNA.)*
- (L22 opens at the band foot — read in L4's overlap)

Band L4 (src y 1661–2492) — Art. 15 ends; margin "16"; Art. 16 body (left halves)

- **L19–L21** re-read in overlap — as Band L3.
- **L22** | name him or them that soe did / ✓ Art. 15's closing clause whole on this half, terminal virgule (07-02 ✓)
- (*visible article-spacing gap before Art. 16*)
- **L23** (*margin "16" clear at far left, beside THIS line*) | It[e]m did you ~~you~~ pas[se/t] yo[ur] wourde [soe?/f?] | ✓ the dittograph "~~you~~" strike CONFIRMED at native+; the cut token after "wourde" reads f/s-ish — "so[e]" (07-02) vs "for" flagged
- **L24** | mane for the apparance of [t]he sai[d] | ("*mane*" = *man* ✓; *the line runs to "...said [Rees ap Evan in the Starr]" on the R half*)
- **L25** | chamber the ffridaie after he wa[s] | (*the Starr/chamber split lands here; "ffirst attached" tail on the R half*)
- **L26** | who did request you soe to doe [did?]
- **L27** | to save you harmeles for the sa[me]
- (*margin-habit note: on THIS leaf the numerals "[1]4"/"15"/"16" ride level WITH their opener lines — unlike 008's one-line-below habit; two different scribal hands, two habits.*)
- (*L28 opens at the band foot — read in L5's overlap*)

Band L5 (src y 2216–3047) — Art. 16 completes; THE TEXT ENDS (left halves)

- **L24–L27** re-read in overlap — as Band L4.
- **L28** | you beleve in yo[ur] Conscience [th?]
- **L29** | Buckley or ~~anly~~ e[i]ther of them [?] | ✓ the "~~anly~~" → "either" correction CONFIRMED at native+ (struck blob after "or"); spelling "**Buckley**" here vs "Burkli[e/o]" above — the intra-leaf drift ✓
- **L30** | of the s[ai]d Informac[i]on into th[e] | ✓ the Information styling holds
- **L31** | chamber agaynst the said M[r] [?] | (*the instrument's LAST line — its right half carries "Barker and others yea or noe"; the Starre/chamber split again*)
- (*below L31: BLANK parchment to the band foot — the written zone ends ≈ src y 2900*)
- **LEFT-HALF LINE CENSUS: 31 written lines** (L1 runover-caption line + 30; includes the 2 cramped STRUCK lines L9/L10). First line-count of this leaf.
- (*Foot verification L6–L12 below — pixel-statistics screen + spot reads.*)

FOOT-ZONE SCREEN (pixel statistics, blue-channel dark-fraction per band; disclosed triage aid — direct reads follow on any signal)

- **L b7/b8/b9 = 0.00% dark** — computationally BLANK (src y 3326–5267, left half): confirms 07-02's blank calls with a per-pixel result.
- L b6 0.28% (the L31 text-tail + creases — read directly above); L b10 0.17% / L b11 0.45% / L b12 1.02% (bottom-left corner damage/stains and/or pencil — **spot-read L b12 queued**).
- R b6 8.9% → R b11 2.6% (declining gradient = the leaf's right edge + dark backing entering the tiles; R b6 also carries the Art-16 text end — read directly in the R column); **R b12 20.3% with a 75% row-band = the PRO stamp zone — spot-read queued** (07-02: oval purple PRO stamp, pencil "2," pencil "8/[48]").

- Spot-reads to complete after the R text column: **L b12, R b7, R b12.**
- **Screen caveat (recorded for method honesty):** the blue-channel screen sees iron-gall ink only — **purple (the PRO stamp) and graphite read LIGHT in blue;** the stamp/pencil zone (src y ≈4183–4619) rests on the 07-02 DIRECT read (b9: oval purple PRO stamp, pencil "2," pencil "8/[48]"), not on the screen.

RIGHT HALF-COLUMN (x 0.45–0.98)

Band R1 (src y 135–827) — Art. 13 right halves (the ^{said} interline; the crux tokens)

- **L1R** |to in[ser]te in the ^{said} Bill or informac[i]on ✓ the "said" INTERLINE clear (raised over "the-Bill") → L1 stitched: "ffrom . whoe gave you Instruciones to inserte in the ^{said} Bill or informac[i]on"
- **L2R** |vor foul[d/nd] in [?]ir[?] re[?]t[s?] since ^{M[r]} Justice △ the crux at the strip: the verb-pair still reads "[fa/fe]vor foul[d]/fou[nd]" — BOTH "favor found"/"fewer found" live (TNA); the following cluster ("in [the?] [C]irc[uit]s[?]" per 07-02) shows "re[?]t"-ish strokes — NOT confirmed, flagged; and "**M[r]** rides HIGH before "Justice" (abbreviation-superscript vs insertion — observation, TNA)
- **L3R** |s and that he vsed to staie matters → L3 stitched: "Barker riding[e] in those Countre[y]s and that he vsed to staie matters"
- **L4R** |ent and execuc[i]on and that M[r] **L[a]ighton** △ the vowel reads "**Laighton**" at native+ (07-02 "Leighton") — a/e flag, TNA
- **L5R** |disgracefullie through his **s[e]ruic[e/tt]** ★ the 07-02 crux "[s]uite[?]/[s]e[r]uice[?]" — native+ leans "**seruice**" (r+u+i+c minimis present); "suite" now the alternative → L5 stitched: "the other Justice was vsed disgracefullie through his s[e]ruice[?]"
- **L6R** |did deliver it Publikelie that he was → L6 stitched: "and that M[r] L[a/e]ighton did deliver it Publikelie that he was"
- **L7R** |whoe gave yo[u] theirs or any of their → L7 stitched: "wearie of ^{his} place . whoe gave yo[u] theirs or any of their"
- (L8R opens at the band foot — read in R2's overlap)

Band R2 (src y 551–1382) — THE STRUCK REWARD QUESTION's right halves: "**M[r]** Barker" FIRM; Art. 14 right halves

- **L5R–L7R** re-read in overlap — as Band R1 ("Siruitt/seruice" again; flag stands).
- **L8R** |them that did soe doe / ~~[d]id [the?] [re]ward~~ ★ the struck question BEGINS at L8's end (after Art-13's "name him or them that did soe doe /") — opening tokens "did the[y?] reward"-compatible; struck.
- **L9R** (*cramped, struck*) |~~[pro]m[?]ed[?] [by/to?] [the?] said[?] **M[r]** Barker [re/to]ward[?]~~ ★★ "**M[r]** Barker" reads FIRM inside the struck material at native+ — 07-02's "M[r] Bar[ker?]" upgraded: the deleted probe NAMED THE JUDGE. Surrounding tokens still unresolved; eB below.
- **L10R** (*cramped, struck*) |~~[c]ause [wh?]ereof[?]~~ (+ flourish)
- **L11R** |ys have you receaved from → L11 stitched: "It[e]m what maynetenaunces or mone|ys have you receaved from"
- **L12R** |is servant[e]s or of or from Willia[m] → L12 stitched: "S[i]r Richard Burkli[e] or of any of h|is servant[e]s or of or from Willia[m]"

- **L13R** |ment in the ffleete did you write any → L13 stitched: "Burkli[e] since your imprison|ment in the ffleete did you write any"
- **L14R** |. imprisonment and if you → L14 stitched: "[ett]res to any p[er]son or p[er]sons since your . imprisonment and if you" (*the odd mid-line point after "your" — as 07-02*)
- **L15R** (*band foot, partial*) |thereof / → L15 stitched: "did , what was the Contents thereof /" ✓ Art. 14 ends
- (*R2 eB pass — the struck zone: (a) the STRIKE BARS read dark through the L8-tail and L9 clusters — deletion confirmed both renders. (b) "M[r] B[a/u]rker": the -rker frame is FIRM in eB; the first vowel reads u-ish — but no Bulkeley variant on this leaf lacks the -l- (Burklie/Burklio/Buckley), so Justice Barker stays the identification, vowel flagged for TNA. (c) a small raised mark before "M[r]" — compatible with 07-02's "said" interline within the struck material. (d) L11's verb reads "gaue"-like in eB — "have" grammar-locked, letterform noted.*)

Band R3 (src y 1106–1937) — Art. 15 right halves: the interline + ITS CARET; the Burkli list completes

- **L13R–L15R** re-read in overlap — as Band R2.
- (*the Art-15 INTERLINE whole and clear in this view:*) or gave yo[u] any of the said Instrucc[i]ons (*riding above L16R*) ✓✓ 07-02 confirmed verbatim
- **L16R** |treate you ^ be sides the p[lain]t[iff] ★ the interline's CARET is visible after "you" — the insertion point is exactly "intreate you ... besides" → L16 stitched: "It[e]m who did procure . aduise or in|treate you or gave yo[u] any of the said Instrucc[i]ons besides the p[lain]t[iff]"
- **L17R** |ncelle in the drawinge of the said Bill — → L17 stitched: "Rees to drawe , and be a[s] Cou|ncelle in the drawinge of the said Bill —" (*line-filler dash* ✓)
- **L18R** |t William Burkli[o] Daniell — → L18 stitched: "did S[i]r Richard Burkli[e] Knigh|t William Burkli[e] Daniell —"
- **L19R** |klio Launcellott Burkli[o] or any of → L19 stitched: "Burkli[e] Trustram Burkli[e] Launcellott Burkli[e] or any of" ✓ the five-man list complete across the halves
- **L20R** |we the same Bill did theie → L20 stitched: "them intreate or wishe you to dra|we the same Bill did theie"
- **L21R** |any ffees for the same or promise ^[you?/ere?] hereafter △ DELTA-candidate: a CARET + small raised token sits between "promise" and "hereafter" — either 07-02's "here[a]fter" (whole word interlined) or a different insertion ("you"?) with "hereafter" in-line; eB below
- (*R3 eB pass: the L21 parse revises* — "hereafter" sits at LINE level, full-size; the caret ^ under a compact raised ~3-letter token ("yo[u/w]"-like, descender present). Lead reading now "...give you any ffees for the same, or promise you hereafter" — the insertion supplies the indirect object, parallel to "give you"; 07-02's "here[a]fter"-interlined parse retracted to alternative. DELTA; TNA.)**
- (*L22R zone opens at the band foot — read in R4's overlap*)

Band R4 (src y 1661–2492) — Art. 15 ends; Art. 16 right halves (the "so" resolution; Rees ap Ev[a/o]n)

- **L19R–L21R** re-read in overlap — the L21 "you hereafter" parse holds on re-view.
- **L22R** |soe did / — the strip re-shows the tail; the rest of L22's right half is BLANK (short article-tail line) ✓

- **L23R** |wourde **so** to the warden of the ffleetes ✓ FLAG RESOLVED: the cut token is "**so**" (long-s) — "passe yo[ur] wourde so to the warden of the ffleetes" (07-02's "so[e?]" right; "for" excluded)
- **L24R** |of the said **Rees ap Ev[a/o]n** in the Starrche ⚠ the patronym vowel reads o-ish at native+ ("Evon"/"Evom") vs 07-02 "Evan" — vowel flag (cf. the 008 L1/L8 patronym question); note the line ends "**Starrche**" and L25 opens "**chamber**" — the syllable doubled across the break (the scribe's own line-break dittograph; 07-02's "Starrche/chamber" notation was literal)
- **L25R** |[aft]er he was **ffirst atached[?]** and if you did → L25 stitched: "chamber the ffridaie after he was ffirst atached and if you did" (*single-t "attached" at native+ — micro-flag vs 07-02 "attached"*)
- **L26R** |to doe did S[i]r Richard Burkli[e] promise → L26 stitched: "who did request you soe to doe did S[i]r Richard Burkli[e] promise"
- **L27R** |[f]or the same , And doe you knowe or doe → L27 stitched: "to save you harmeles for the same , And doe you knowe or doe"
- (*L28R opens at the band foot — read in R5's overlap*)

Band R5 (src y 2216–3047) — Art. 16 completes; THE INSTRUMENT'S LAST WORDS (right halves)

- **L25R–L27R** re-read in overlap — as Band R4.
- **L28R** |ience that the said S[i]r R[i]chard , Willm → L28 stitched: "you beleve in yo[ur] Conscience that the said S[i]r R[i]chard , Willm"
- **L29R** |of them were privie to the exhibitinge → L29 stitched: "Buckley or ~~any~~ e[i]ther of them were privie to the exhibitinge"
- **L30R** |into th[is] Honorable Courte of Starre → L30 stitched: "of the s[ai]d Informac[i]on into th[is] Honorable Courte of Starre"
- **L31R** |[sai]d M[r] Barker and others **yea or noe** → L31 stitched: "chamber agaynst the said M[r] Barker and others yea or noe ." ✓✓ the instrument's final clause confirmed whole ("yea or noe" trails slightly fainter at the end)
- (*below L31: BLANK to the band foot*)
- ✓ **CENSUS CONFIRMED from the right side: 31 written lines** — same count as the left pass (incl. the 2 cramped struck lines L9/L10); no additional lines on the right halves; L22's right half blank (short tail line).

Band pair b6 (src y 2771–3602) — text-end DIRECT verification

- **L b6**: only L31's left half re-shows at the top ("chamber agaynst the said M[r]..."); below — blank parchment, creases, stains. **R b6**: only L31's right half at the top ("...[sai]d M[r] Barker and..."); below — blank; sewing prick-marks along the right edge. ✓ The instrument ends at L31 on both halves — direct-read confirmed.

FOOT SPOT-READS (screen follow-ups)

- **R b7 (src y 3326–4157)**: blank parchment + prick-marks along the right edge; the screen's 7.3% = the dark backing wedge at the frame's right. NO ink. ✓
- **R b12 (src y 6101–6794)**: the leaf's bottom-right corner — browned/stained parchment sloping into black backing (the 75% "rowband" = backing, not marks); ONE stray ink blot (~x 0.85); NO text. ✓

- **L b12 (src y 6101–6794): ★★ INK FOUND — THE FILE'S ENDORSEMENT/DOCKET** (see next section). The 07-02 sweep's grid stopped at y 0.68 (≈4619px); the corner zone was never previously imaged by ANY pass.

★★ THE ENDORSEMENT (BOTTOM-LEFT CORNER, WRITTEN ROTATED 90° ALONG THE LEAF'S EDGE — NEW; NO PRIOR PASS COVERED THIS ZONE)

Zooms: crops/stac_p4b/crop_p4b009_endorse_cw.jpg (nat 2x, rotated to read) + _eR.jpg (flat-field+CLAHE red-channel — the stained-zone recipe). Source rect ≈ x 0.06–0.26, y 0.885–0.995 of the 2948×6794 leaf.

Diplomatic reading (4 lines, one clerk's hand, iron-gall):

1. **Ex[?]^[?] Townley** — "Ex" + superscript abbreviation ("Ex[aminaciones]?") — the standard examination-file docket opener; exact abbreviation TNA); note the spelling "**Townley**" (no medial e) — new variant for the name table
2. **et aī p[er] ordin[em]** — "and others, by order" — the examinations taken *per ordinem* (matching 008's caption "Accordinge to a[n] ord[er]... made the [-tenthe?] daie of June")
3. **Ad sect[am]?/Adv[er]s[us]? Barker ar[migeri]** — the second character-cluster reads "Adfe[c/r]t" — "**ad sect[am] Barker ar[migeri]**" ("**at the suit of Barker esquire**") is the **paleographic LEAD** (long-s clear; no "u" for "Adu[er]sus"); "Adv[er]s[us] Barker" (= in the cause against Barker) kept as the alternative. ⚠ If "ad sectam" stands, the docket styles the examination-cause as **Barker's own suit** (the counter-proceeding against the bill-makers) — a THIRD party-styling stratum alongside 001's Latin caption ("Lloyd v. Barker & others") and the TNA catalogue (*Lloyde v. Lewys*). Interpretation is flagged for USER + TNA — not folded anywhere yet.
4. **T . 5 . Ja[cobi]** — the term-date docket: "**T[ermino Trinitatis] 5 Ja[cobi I]**" = **Trinity term, 5 James I = June–July 1607** — the file's own dating, locking the chronology (margin "Junij 1607," the 10-June order, the 11-June examinations, the Trinity-1607 *Floyd v. Barker* decision).

(Right of line 1: a cut-off flourish/stroke at the crop edge — check in any wider recut; likely otiose.)

 PHASE 4B COMPLETE (2026-07-07) — LINE CENSUS: 31 WRITTEN LINES, BOTH HALVES AGREE

(28 text lines + the 2 cramped STRUCK reward-question lines L9/L10 + the short tail L22; text ends at L31 ≈ src y 2900; below: blank → PRO stamp (y≈4.4k, 07-02 direct read) → blank → the ENDORSEMENT at the bottom-left corner.)

DELTA LOG vs _WORKING_009_TRANSCRIPTION.md (07-02 precision sweep):

1. **★★ THE ENDORSEMENT/DOCKET FOUND** (rotated, bottom-left corner, y≈0.90–0.99 — a zone NO prior pass imaged): "Ex[?] Townley / et aī p[er] ordin[em] / Ad sect[am]?/Adv[er]s[us]? Barker ar[migeri] / T . 5 . Ja[cobi]" — Towneley named "et al.," Barker styled esquire, and the file self-dated **Trinity term 5 Jac. I**

- (1607). "Ad sect[am] Barker" (lead) would docket the cause as **Barker's suit** — flag to user + TNA before any use.
2. ★ **"M[r] Barker" FIRM inside the struck reward question** (L9R; 07-02 had "Bar[ker?]"); the strike opens at L8's end ("did the[y?] [re]ward"-compatible); bars confirmed in both renders; a ^{said}-like raised mark before "M[r]" as 07-02.
 3. **L9/L10 layout sharpened**: the struck question = TWO CRAMPED lines physically squeezed between L8 and the Art-14 opener — an afterthought insertion, then struck entire. Drafting archaeology: added late, deleted whole.
 4. **L21 — "or promise ^{you} hereafter"**: "hereafter" sits at line level; the caret+raised token is "yo[u]" (supplies the indirect object, parallel "give you") — 07-02's "here[a]fter"-as-interline retracted to alternative.
 5. **The fewer/favoured crux RE-OPENED** (L2): native+ vowels lean "**favor found**" — the FIRST sweep's "[favoured?]" partially rehabilitated against 07-02's "fewer found[?]" ; and the following "[C]irc[uit]s[?]" cluster is NOT confirmed ("re[?]"-ish strokes). Both cruxes TNA.
 6. **NEW small interline above L2's head** ("et"-like raised token above "that [ro]beries") — unresolved; TNA.
 7. **"through his s[e]ruice" now leads** over "suite" (L5; r-u-i-c minims) — the Leighton-disgrace clause.
 8. **Name-vowel flags**: "L[a]ighton" (a-ish, L4/L6) vs 07-02 "Leighton"; "Rees ap Ev[o]n" (o-ish, L24) vs "Evan" — joins the 008 patronym question (Ev[a]n/hu) as one TNA name-cluster.
 9. **Margin-numeral habit differs by hand**: 009's "[1]4"/"15"/"16" ride LEVEL with their openers (008's hand inks them one line below) — corroborates two scribes.
 10. **Small/spelling**: "Trustram" ✓ concurs (u-bowl, both leaves); "Burkli[e/o]" terminal-o letterform habit (flagged once); "Buckley" (L29) ✓ drift confirmed; "atched" single-t (L25); the "Starrche|chamber" break-dittograph is literal on the leaf (L24/L25); L23 "so" resolved (not "for"); L16's caret sits exactly after "intreate you"; L14's "l[ett]res" bar-abbreviation explained (not a strike); L11 opener "Item" (my in-pass "ffrom" impression retracted).
 11. **Line census 31** — first count of the leaf; L/R passes agree; runover/short-tail census: L22 only.
 12. **Foot verified end-to-end** (direct reads b6 pair, R b7, L/R b12 + blue-channel screen with the purple-blindness caveat; PRO-stamp zone per 07-02's direct read): the endorsement is the leaf's ONLY ink below L31.
- NEXT (Phase 4C, expanded): 010 completeness audit** — seam-strips ($x \approx 0.27/0.52/0.755$), eR/nat@2× re-renders of ALL remaining [?] tokens, blank-zone verification, rows 13–16 spot pass, **PLUS (new, endorsement-driven): run the foot/edge ink-screen + corner-zoom protocol over the FULL extent of ALL TEN membranes (001–010) — every prior sweep sampled y-ranges; rotated edge-writing escapes band grids.** Phase 4D (001–007 uniformity) then goes to the user with the screen results in hand.
