Purpose (Phase 4A): completeness + fidelity re-pass of 008 at native-plus resolution. The 2026-07-02 sweep (_WORKING_008_TRANSCRIPTION.md, 15 full-width bands) ran at 0.77× native (CROP_MAXW=2200 on a 2862px-wide leaf). This pass reads the leaf in **L/R half-columns at ~1.12× native** with the v2 restoration renders, line-by-line with **line numbers**, and logs every difference from the 2026-07-02 sweep in the **DELTA LOG** at the foot.

Tiles: stac_p4a/crop_p4a008L_b1..b12[_eB] (x 0.05–0.55) and crop_p4a008R_b1..b12[_eB] (x 0.45–0.98), y 0.02–1.00, 25% band overlap, q90; manifest = stac_p4a/_manifest.jsonl. Reading order: L column (this cycle), /compact, R column; lines stitched via the shared x 0.45–0.55 strip.

Conventions: diplomatic; [?] uncertain · [...] / [] supplied/illegible · word interlineation · ~~text~~ scribal strike · | = the half-column cut (text continues on the other half). Line numbers are the leaf's own written lines, counted from the first caption line (L1). A reading is trusted only if it survives nat + the enhanced render consulted.

Band L2 (src y 545–1368) — Art. 1 tail; Art. 2 (margin "2"); Art. 3 opens (margin "3")

- **L6–L8** re-read in overlap — as Band L1.
- **L9** *(margin: "2" at far left, baseline slightly BELOW L8's start — the zg8m2 anchor at L8 "And doe you beleve" stands; the numeral rides low, between L8 and L9) | the last Sessions of the said [Countie?] [of?] Angle |*

Band L3 (src y 1094–1917) — Art. 3 completes; Art. 4 (margin "4"): the Bulkeley list

- **L13–L16** re-read in overlap — as Band L2; the L13/L14 interline still [?] word[?] yo[u] of him sel[fe?] at this scale; L16 now full: | ap Res ap Willia[m] and to others, and for ot |
- **L17** | did not you rather complaine of yo |

- **L18** | yf any yo[u] have receaved ; then of th | ★ DELTA: the 07-02 "[rather?] then of their wronge[s]" is NOT on the leaf — the "rather" belongs to L17 ("rather complaine"); the construction is "rather complaine of yo[ur] owne ... then of their [wrones]"
- **L19** (*Art. 4 opens; margin "4" at far left, beside L19–L20*) | And whoe did p[ro]cure[?] devise or intreat[e] | ★ DELTA: opens "**And whoe**" — flourished And-A matching L8/L14 — NOT "[It]em: who" (07-02); confirm on R column
- **L20** | gave you direction or instruction fo |
- **L21** | Richard Bulkeley knyght , Daniell B |
- **L22** | Bulkeley his br[o?]theren «or» Willm B | ★ DELTA: the different-ink "or" is an **in-line squeezed insertion at the baseline** (orange/faded ink, in a gap), not a superscript caret as 07-02 recorded; also "br[o?]theren" candidate vs 07-02 "bretheren"
- **L23** (*band foot, partial*) | [... devise or] intreate[?] yo[u] to p[re]ferre[?] |

Band L4 (src y 1643–2466) — Art. 4 completes (Towneley); Art. 5 opens (margin "5")

- **L20–L22** re-read in overlap — as Band L3; the in-line orange «or» confirmed very clear.
- **L23** (*now full*) | p[ro]cure aduise or intreate yo[u] to p[re]ferre | ("*aduise*" here vs "*devise*" at L19 — the same first/repeat alternation the 07-02 sweep recorded)

- **L26** | Towneley (**blank gap ~6 chars**) Councello[r] at Lawe dra | (*the gap between "Towneley" and "Councello[r]" is real space on the leaf; whether "[one?] John" precedes "Towneley" resolves on L25's right half*)
- **L27** (*Art. 5 opens; margin "5" at far left*) | It[e]m did not the said S[i]r Richard , Daniell | (*Art. 5 = "Item"; Art. 4 = "And whoe" — the openers alternate*)

Band L5 (src y 2192–3015) — Art. 5 body: interline names, the struck zone; Art. 6 opens (margin "6")

- **L31** | did they or any of them ^{[Hugh?] Loyd[?] [?]e[?]} or ... so[e] send[e] the | (*the intermediary interline rides above the gap between "them" and "soe"; left half ends "...or" at the cut — right column carries the "Willia[m] [K]endrick[?]" portion*)
- **L32** | from whome came the same ; And whe | (*no "And" before "from" — the 07-02 "And from whome" takes its "And" from L31's right end, TBC on R column*)
- **L33** | ~~ly~~^[?] ~~[ffeo?/~5-letter word]~~ gave any direction ^{to you or} to the sai | ★ eB: the strike = **TWO tokens under one continuous bar** at the line head (short y-word + ~5-letter word with a double-ascender start), immediately before "gave" — sharper than 07-02's "[struck word] [struck opening]"; still unresolved, TNA item. The ^{to you or} caret sits between "direction" and "to the" — confirmed.

- **L35** (*Art. 6 opens; margin "6" at far left*) | Item what some or somes of money did yo| (*l-hook "Item" letterform — same class as L27, distinct from the L19 "And" A-form; the And/Item opener split is real*)

Band L6 (src y 2741–3564) — Art. 6 body + tail; Art. 7 opens (margin "7")

- **L38** | directlie or indirectlie sithens the vj^{te} da| ★ DELTA (small): the day-ordinal is superscript "vj^{te}" ("sixte"), not "vj[th]" (07-02); "sithens" spelling
- **L39** | have [so^{u?}/yo^{u?}] shall or receaved ; And what [?]| ★ DELTA: "shall" is **IN-LINE** in both renders — 07-02's "have so [or] ^{shall} [have] receaved" interline-parse is not on the leaf; token 2 is a y/s-descender + superscript squiggle (so^u/yo^{u?}); word order unresolved at 1.12× — TNA item; the tokens sit at x≈0.32–0.52, partially re-shown in the R-column shared strip
- **L40** | request yo[u] to be of ~~Councell~~ in the drawinge of the s[?]| ★ DELTA: a bar runs C-through-ll across "Councell," **iron-gall-dark in eB** — probable scribal strike (a crease at nearly the same y makes this less than certain); same stroke-class as the L33 strike; 07-02 recorded no strike here. TNA item.
- **L41** (*short runover line, indented — Art. 6 tail*) | [fee?] for the same , |
- **L42** (*Art. 7 opens — And-A letterform*) | And did not you a litle before you |

Band L7 (src y 3290–4112) — Art. 7 completes; Art. 8 (margin "8"): the estate probe

- **L43–L45** re-read in overlap — as Band L6.
- **L46** | self keepe companie w[i]th the said W|
- **L47** | had yo[u] w[i]th the said Willia[m] Bulkele[y]|
- **L48** (*short runover line — Art. 7 tail*) | bill | (*confirms the scribe's runover-tail habit; retro-validates L41 "[fee?] for the same" as the same device*)
- **L49** (*Art. 8 opens; margin "8" faint at far left, riding low*) | Item what lande[s?] ten[emen]t[e]s[?] goods and cha| ★ DELTA: the estate list has **FOUR members** — 07-02 read three ("[lands?], goods and chattells"). Token 4 initial reads "goods" in eB (descender-loop g; my nat-render "woods" retracted); the second member is double-ascender — best fit the standard formula "landes, ten[emen]ts, goods and chattells"; read-candidates "butts"/"kattell" logged. TNA item.
- **L50** | acquitted of the said murther ; And wh| ★ "acquitted" FIRMED at native+ (07-02 had "[a]cquitted[?]" bracketed) — the Art-8 trial-acquittal presupposition now reads clean on both renders
- **L51** | hadd[?] you sithens of yo[ur] father ; And| (*first token had/shall ambiguous in both renders; "sithens" (past) requires "hadd" — grammar-locked, letterform flagged*)
- **L52** | disburs[e/t] or laye out sithens the said |

- **L53** (*band foot, partial*) | lawe as for yo[ur] owne expenses ; And |

Band L8 (src y 3838–4661) — Art. 8 completes (Westminster actions, dittograph strike); Art. 9 opens (margin "9")

- **L51–L53** re-read in overlap — as Band L7.
- **L54** | dependinge in the Cowrte of Westm̃ or | ★ DELTA (small): "**Cowrte**" reads SINGULAR at native+ — 07-02 had "Courts" plural

Band L9 (src y 4387–5210) — Art. 9 completes; Art. 10: the liverye interline

- **L58–L60** re-read in overlap — the L59 bar over "Bulkeley" reads as crease at this view (not logged as strike).
- **L61** | by the warden of the ffleets man se |
- **L62** | Bulkeley in his chamber about the sa |
- **L63** (*short runover line — Art. 9 tail*) | doe therein | (*third instance of the runover-tail habit*)

And at":*) and one of S[i]r Richard[e/s] men in liverye ★ DELTA (refinement): first token = "**and**" — 07-02's "a[?] one of..." resolved; a caret sits near the interline head — whether it inserts after L65R "Towneley" or after L66 "you" resolves on the R column

Band L10 (src y 4936–5759) — Art. 10 completes; Art. 11 opens (TNA file-slip enters bottom-left margin)

- **L65–L67** re-read in overlap. ★ The liverye-interline **caret resolved**: it sits between "you" and "And" on L66 — the insertion reads "...that passed his worde for you and one of S[i]r Richard[e]s men in liverye : And at whose request..." — the interline adds a SECOND suspected passer after "for you" (not a replacement for Towneley).
- **L68** | the said Towneley soe to doe ; And p |

- **L72** | for any money to be payed or delivered |
- **L73** | re or token ; And what money did | (*line opens mid-word — "...any such lett/re or token"; "token" by formula, letterform o/a ambiguous*)
- **L74** (*band foot, partial*) | whome any such l[ett]re o[r] token [was?]|

Band L11 (src y 5485–6308) — Art. 11 completes; the petition question opens (*slip fully in frame*)

- ★ **TNA slip decoded further** (nat+eB, text mirrored = show-through of the printed face): "File [3?]8" · "Bundle 2[03?]" · "JAM[ES]" · "PRO[CEEDINGS?]" · "STAR C[HAMBER]" — i.e. the PRO/TNA printed series slip *Star Chamber Proceedings, James I, Bundle 203, File 38* — the piece's own modern identity riding the leaf; 07-02 recorded only "File / Bundle 3".
- **L72–L74** re-read in overlap; L74 now: | whome any such l[ett]re or token was se |
- **L75** | frende[s?] of the said S[i]r Richard [B?]|
- **L76** | you receaved the same ; And | (*faint superscript traces above "the same" — consistent with 07-02's Art-11 interline "or of the [him?]selfe", body on the R half*)
- **L77** | Bulkeley or either of them did | (*the tiny mark above "them" reads as pen-rest/stray in eB — NOT an interline*)
- **L78** | Towneley any some or somes of |

- **L81** | [and?/lt[e]m?] did not you upon a peticon [?]| ★ DELTA-candidate: the opener glyph ends with a d-loop and lacks both the And-A double bowl AND the clean "Itm̃" form — "and" (lower-case, continuing Art. 11) is a live reading alongside 07-02's "Item"; if "and," the petition/sureties material may be Art. 11's tail rather than a separate Art. 12 — STRUCTURAL question for the R column + TNA. Also "peticon" (c, standard abbreviation) — 07-02's "petiron" retracted.
- **L82** (*band foot, partial*) | tinuance of the said suite upon[?] [?]|

Band L12 (src y 6034–6720) — the sureties clause + TORN FOOT

- (*the slip's PRINTED FACE reads unmirrored at top-left here: "STAR CH[AMBER]" / "PRO[CEEDINGS]" / "JAM[ES I]" — series-slip decode confirmed from the front*)
- **L81–L82** re-read in overlap; L81 opener finalized as [and?/But?] — neither the And-A double bowl nor the clean "Itm̃" form; 07-02's "Item" is doubtful. If "and," the peticon+sureties material continues Art. 11 rather than opening a separate Art. 12 — structural TNA item. L82 now: | cont[y]nuance of the said suite upon [th?]|

✓ LEFT HALF-COLUMN COMPLETE (12/12 bands, 2026-07-07) — LINE CENSUS: 86 written lines

(3 caption lines + 79 article lines + 4 short runover tails: L41 "[fee?] for the same" · L48 "bill" · L63 "doe therein" · L80 "chamber" — a scribal habit the 07-02 full-width sweep never isolated.) The R half-column must land on the same census. Running delta log vs WORKING_008_TRANSCRIPTION.md (left-half evidence; verify on R where flagged):

1. **L19 — Art. 4 opens "And whoe did p[ro]cure"**, not "[It]em: who" (letterform-class verified vs L27/L35 "Itm̃"). The instrument's openers alternate: 4 And · 5 Item · 6 Item · 7 And · 8 Item · 9 And · 10 And · 11 And.
2. **L18 — the second "[rather?]" is not on the leaf**: "rather complaine of yo[ur] owne ... then of their [wrongs]" — one "rather," at L17.
3. **L22 — the later-ink "or" is an in-line squeezed insertion**, not a superscript caret ("«or»" not "or"); same orange ink family as the liverye interline.
4. **L33 — the Art-5 strike = two tokens under one continuous bar** at the line head (y-word + ~5-letter word), sharper than 07-02's two separate strikes.
5. **L39 — "shall" is IN-LINE** — 07-02's "have so [or] ^{shall} [have] receaved" interline-parse retracted; word order still open (TNA).
6. **L40 — probable NEW strike: "to be of ~~Council~~ in the drawinge"** — bar stays iron-gall-dark in eB; crease not fully excluded (TNA).
7. **L49 — the estate list has FOUR members**: "lande[s?] ten[emen]t[e]s[?] goods and cha[ttells]" (standard formula fit); 07-02 read three.
8. **L50 — "acquitted" firmed** (bracket dropped); the Art-8 trial-acquittal presupposition reads clean.
9. **L54 — "Cowrte" singular**; L38 — "vj^{te}" superscript ordinal; L81 — "peticon" (07-02 "petiron" retracted); L83 — "hole [charge]".
10. **Liverye interline resolved**: "and one of S[i]r Richard[e]s men in liverye," caret between "you" and "And" on L66 — a SECOND suspected passer added after "worde for you," not a Towneley replacement.
11. **L81 opener "[and?/But?]"** — Art. 12's separate existence on this leaf is now a live structural question (margins slip-obscured; 009's margin "14" still fixes the instrument at 16 articles).

12. TNA slip decoded: printed PRO series slip "STAR CHAMBER PROCEEDINGS, JAMES [I] — Bundle 2[03], File [3]8" (front face read unmirrored in Band L12).

13. Line census 86 — first line-count of the leaf (completeness metric for the R column and for TNA).

NEXT: /compact, then RIGHT half-column — tiles crop_p4a008R_b1..b12[_eB] already on disk; stitch via the shared x 0.45–0.55 strip; resolve flagged items: L25R "[one?] John Towneley"; L31R interline tail "...Willia[m] [K]endrick[?]" ; L32R "And" before "from"?; L39 word order; L40R strike extent; L58R "and talke"/"w[i]th"; L65R caret near "Towneley"?; L71R "Com[?]" (Countie/Comote); L81R peticon clause + Art-12 structure; foot lines R halves.

RIGHT HALF-COLUMN (x 0.45–0.98)

Band R1 (src y 134–819) — caption + Art. 1 + Art. 2 head, right halves (*nat + eB both consulted*)

- **L1R** | agaynst Res[?] ap [Ev[a]n?/hu[?]] Lloyd → **L1 stitched:** "Articles to be mynystred agaynst Res[?] ap [Ev[a]n?/hu[?]] Lloyd". The first name-token is a double-loop cluster — compatible with the 07-02 verified "**Res**" (crop_v008* zooms + the instrument's own internal anchor, Art. 16 "for the appearance of the said Rees"); my nat-pass "Dd" retracted. ⚠ **OPEN NAME QUESTION (TNA, names above all): the patronym** — the token opens with a TALL ASCENDER in both renders, "hu"-like at 1.12x, where 07-02/v008 read "**Ev[a]n**"; the same letterform recurs at L8 (the brother). If "Hugh," the L31 interline intermediary "[Hugh?] Loyd" may be the same name. NOT logged as a delta — professional transcription decides.
- **L2R** | [pri]son[er?] in the ffleete [+ ~4 faint smaller tokens] (*mottled zone; 07-02's "a[tt?] agaynste [him? ___]" compatible but unresolved in both renders — TNA*)
- **L3R** | [?] the [?] twent[ieth?] d[a]ie of Ju[ne/nij] (*the order-date clause, as 07-02 band 1; margin gives "Junij 1607"; the 2x pilot tile p4date covers this zone*)
- **L4R** | ns [?] sithens[?] the vj^{te} of October last ★ superscript ordinal (07-02 "vj[th]"); cross-link: Art. 6's disbursement window "sithens the vj^{te} da|" (L38) runs from the SAME 6-October anchor date
- **L5R** | [ies?]t[?] Justic[es] of his highnes greate → L5 stitched: "that Richard Barker esquier one of his ma[ies]t[ies] Justic[es] of his highnes greate"
- **L6R** | rthwales **should be noe more Justice** → L6 stitched: "Sessions of the Counties of Anglesey in Northwales should be noe more Justice" (*with L7's "there" — the reported speech complete, as 07-02*)
- **L7R** | the same And what moved you soe to say[e?]
- **L8R** | that J[?]n ap [Ev[a]n?/hu[?]] Lloyd yo[ur] brother was (*patronym letterform = L1R's — one question, two instances*)
- **L9R** (*band foot, partial*) | [Angle]sey wrongfullie indicted [co]nd[e]mpned[?] → L9–L10 flow: "...was [at?] the last Sessions of the said Countie of Anglesey wrongfullie indicted, condempned & executed for murtheringe..." (*re-verify in R2's overlap*)

Band R2 (src y 545–1368) — Arts. 2–3 right halves (*nat + eB both consulted*)

- **L6R–L8R** re-read in overlap — as Band R1. △ Name note: this band's eB view of the **L8 patronym** shows a **ROUNDED** initial ("E"-compatible) — the 07-02 "**Ev[a]n**" gains support against my R1 "hu"-impression; the L1/L8 patronym question stays open but leans Ev[a]n.
- **L9R** (*now full*) |[Angle]sey wrongfullie indicted condempned ✓
- **L10R** | [A[nn/m]is?] or otherwise ; And whether yo[u] were (*the disputed name-token sits left of the strip — no new light on "A[nn/m]is"*)
- **L11R** | fact yea or noe ; And what → L11 stitched: "[iu]stlie or wrongfullie indicted for that fact yea or noe ; And what"
- **L12R** | ene yo[u] and Willia[m] ap Res [**ap?**] **W^m** ★ DELTA-candidate: the line ends in the superscript-m abbreviation form "**W^m**" (= W[illia]m) — the executed man's name in the THREE-ELEMENT form "**Willia[m] ap Res ap W[illia]m**" (the form zg8art2 anticipated, and the same form as L16's "ap Res ap Willia[m]"); the connector token is crease-crossed ("ap" vs "by" not letter-certain), but only the three-element reading flows into L13: "...quarel[l]s was betweene yo[u] and Willia[m] ap Res ap W[illia]m that was executed w[i]th yo[ur] said brother." 07-02's "by [who]m" doubtful. TNA name item.
- **L13R** | strip re-show of "...brother /" only — the right half of L13 is otherwise BLANK (the article ends here; Art. 3 opens at L14)
- (*interline scraps at the strip edge, between L13 and L14: "...[h]im[?] self[fe?]"-compatible — as the left pass; still unresolved, TNA*)
- **L14R** | Starrechamber agaynst M[r] Justic[e] → L14 stitched: "And did not yo[u] [blot] [pre?]ferre a bill into the Starrechamber agaynst M[r] Justic[e]"
- **L15R** | & iniurie done vnto ^{W[illia]m} ★ refinement: the interlined "^{W[illia]m}" hangs at the END of L15 (raised small token after "vnto," both renders) — 07-02 placed it at the band seam without a line anchor
- **L16R** (*band foot, partial*) | her supposed misdemeano[urs] ; And wh[y?] → into L17 "did not you rather complaine..." (as 07-02)

Band R3 (src y 1094–1917) — Art. 3 tail + Art. 4 right halves (the Bulkeley list completes)

- **L14R–L16R** re-read in overlap — as Band R2; L16R's tail firmed "**And why**".
- **L17R** |[ur] owne and yo[ur] said brothers wronge[s] → L17 stitched: "did not you rather complaine of yo[ur] owne and yo[ur] said brothers wronges" ✓ delta #2 (single "rather") now confirmed from the right side
- **L18R** |e[ir] wronges / → L18 stitched: "yf any yo[u] have receaved ; then of their wronges /" (*terminal virgule — Art. 3 ends here*)
- **L19R** |intreate you to p[re]ferre the said bill or → L19 stitched: "**And whoe** did p[ro]cure devise or intreate you to p[re]ferre the said bill or" ✓ delta #1's clause complete
- **L20R** |r the drawinge thereof ; did S[i]r
- **L21R** |ulkeley **Tru[?]stram** Bulkeley Launcel[o/e]tt[?] ★ small DELTA-candidate: the Tristram vowel reads "u" in BOTH renders ("Trustram") — 07-02 normalized "Tristram"; secretary u/i minims close, so flagged not firm. "Launcel[o/e]tt" vowel also flagged (leaf-edge cramping).
- **L22R** |ulkeley his nephewe or any of them

- ★ **NEW INTERLINE (right half only, nat + eB):** raised small-script cluster "[or to?] be of Counsell" riding directly above L23R's "said bill ; or whoe" — insertion extends the Art-4 predicate: "...p[ro]cure aduise or intreate yo[u] to p[re]ferre the said bill or to be of Counsell ; or whoe did yt". 07-02 (bands 4–5) read these tokens as IN-LINE between "any of them" and "procure" — i.e. it saw interlined text and took it for line text. First raised token(s) "[or to?]" still flagged; same revision layer as the ^{to you or} caret (L33) and the Art-6 fee clause. TNA item. The left-column bands could not see it (x-span ≈0.65–0.85).
- **L23R** (*band foot*) | the said bill ; or whoe did yt ; → L23 stitched: "p[ro]cure aduise or intreate yo[u] to p[re]ferre the said bill or to be of Counsell ; or whoe did yt ;"

Band R4 (src y 1643–2466) — Art. 4 completes (Towneley); Art. 5 opens, right halves

- **L21R–L23R** re-read in overlap — "Trustram" u-bowl again; the ^{be of Counsell} interline again sits BETWEEN L22 and L23, over "said bill ; or whoe" — insertion after "bill" preferred: the predicate pair "p[re]ferre the said bill or to be of Counsell" mirrors Art. 15's "to draw and be of counsel in the drawing" and Art. 6's "be of Counsell in the drawinge" — the instrument's own formula. (Insertion after L22's "them" parses worse; noted as the alternative.)
- **L24R** | r any of them w[i]th the contents → L24 stitched: "did you at any tyme acquainte them or any of them w[i]th the contents"
- **L25R** | thereof () did not [one?/yo[u]?] John ★ FLAG ITEM RESOLVED IN PART: the uncertain token precedes "John" at L25's end (not "Towneley" directly — "Towneley" opens L26); the token is BLOTTED/overwritten at native+ — "one" (07-02) and "yo[u]" both compatible; TNA. The **empty parentheses** "()" after "thereof" are REAL (07-02's "()" confirmed) — a deliberate blank on the leaf.
- **L26R** | we or penne the said bill / → L26 stitched: "Towneley (gap ~6 chars) Councello[r] at Lawe drawe or penne the said bill /" (*terminal virgule — Art. 4 ends; the mid-line gap after "Towneley" remains a deliberate blank — with "John" landed on L25, the gap may have been left for a further identifier*)
- **L27R** | , Tru[?]stram Launcel[e/o]tt and Willm → L27 stitched: "It[e]m did not the said S[i]r Richard , Daniell , Trustram Launcel[e/o]tt and Willm" ★ "**Trustram**" now read THREE times with the u-bowl (L21R nat+eB, L27R) — upgraded from candidate to DELTA: the scribe's spelling is "Trustram"; 07-02's "Tristram" was a normalization. (Canonical form = TNA.)
- **L28R** | or speake to ^{the} said Towneley (*the ^{the} interline as 07-02*)
- **L29R** | of them did give or send any → L29 stitched: "in that behalfe[e] , or whether they or any of them did give or send any"
- **L30R** (*band foot, partial*) | minge of the said bill . By whome → L30 stitched: "direction or instruction for the **framinge** of the said bill . By whome" ✓ Art-5 "framinge" vs Art-4 "drawinge" distinction confirmed
- (*R4 eB pass: the L25R token before "John" is an overwritten blot in both renders — "yo^w"-compatible strokes under the blot; kept "[one?/yo[u]?]" with TNA flag. The ^{be of Counsell} interline survives eB — reading upgraded to trusted; first raised token still "[or to?]"*.)

Band R5 (src y 2192–3015) — Art. 5 body right halves: the Kendrick interline, the strike zone; Art. 6 opens

- **L27R–L30R** re-read in overlap — as Band R4.
- **L31R** | send the said instructions or directions : **And** ✓✓ TWO FLAGS RESOLVED: (a) L31 stitched "did they or any of them ... so[e] send the said instructions or directions : And" — (b) the line-final "**And**" is L32's

opener carried up: L32 reads "**And** from whome came the same" — 07-02's "And from whome"
 CONFIRMED, my left-pass doubt withdrawn.

- *(the intermediary INTERLINE, right portion — small script sloping between L31R and L32R:) ...[?] [Lo[yd]?] or Willia[m] [K/H]endrick[?] or* — the tail ends with a trailing "**or**" (as 07-02); surname initial K/H still not letter-certain at native+; the left portion gave "[Hugh?] Loyd[?]..." Full interline best text: "[Hugh?] Loyd [?] or Willia[m] [K]endrick or" — intermediary names, both TNA items.
- **L32R** |ther any other p[er]son or p[er]sons ~~before?~~ ★ DELTA-candidate: a STRUCK token ends L32 — bar through a ~6-letter b-initial token ("before"-like). With the L33-head strike this makes THREE struck tokens spanning the line break: "any other p[er]son or p[er]sons ~~before?~~ / ~~ty~~ ~~ffool?~~ gave any direction..." — 07-02's "[struck word] [struck opening]" was seeing this pair of strike-zones. eB check below.
- **L33R** |to the said Towneley for the drawinge thereof → L33 stitched: "[...] gave any direction ^{to you or} to the said Towneley for the drawinge thereof"
- **L34R** |at be there [name[s]] & e[ver]y of their names : / → L34 stitched: "to yo[ur] knowledg[e] yea or noe ; And wh[at be there names & every of their names /" (*terminal virgule — Art. 5 ends*)
- **L35R** |[mon]ey did you receave[d?] or **shall you** of the said S[i]r → L35 stitched: "Item what some or somes of money did yo|u receave[d?] or shall you of the said S[i]r" (*the receave/shall pairing sits HERE in Art. 6's opening — cross-light for the L39 "Declare what yo[u] have so..." word-order flag*)
- **L36R** |either of them & of Willm ap Res [~~himself?~~/Humffrey?] or △ NEW FLAG: the token after "Willm ap Res" does not read cleanly as 07-02's "himselfe" at native+ — the mid-cluster shows ff-like twin ascenders ("Humffrey"-compatible, which would be a NEW NAME in the cast). eB check below; TNA.
- **L37R** |[?] or any of their direction & appointm[en]t[e?] △ stitch tension: left pass caught "by their di|" at the cut; right half reads "or any of their direction" — likely full line "by their **or any of their direction & appointm[en]t**" (07-02's formula), the left-edge "di" a misread or a re-show of "direction"'s head; resolve in R6 overlap.
- *(R5 eB pass: the L32-final strike survives eB* — bar ink-dark through the b-initial token; "~~before?~~" upgraded to trusted (extent/wording TNA). The L36 token re-reads in eB with the same tall-ascender cluster — note added: "him felfe" (long-s + l + f) presents the same ascenders as "ffrey," so "**himselfe**" (07-02, context-fit) stays the lead reading; "Humffrey" logged as the letterform alternative only, TNA. Kendrick interline: eB no sharper — "[K/H]endr[i/y]ck" stands. L35 "receave[d?]" — terminal stroke reads flourish-like; grammar wants "receave".)**

Band R6 (src y 2741–3564) — Art. 6 completes (the CRAMPED fee line); Art. 7 body right halves

- **L34R–L36R** re-read in overlap — as Band R5 (the L36 ascender-cluster unchanged).
- **L37R** (*overlap re-read — STITCH RESOLVED*): the row reads clean "**by their or any of their direction & appointm[en]t**" — the left pass's trailing "di|" is RETRACTED (the strip's "or" misread at the tile edge); L37 full: "or of any other p[er]son or p[er]sons by their or any of their direction & appointm[en]t" (07-02's formula confirmed).
- **L38R** |the vj^{te} day of October last , Declare what yo[u] → L38 stitched: "directlie or indirectlie sithens the vj^{te} da|y of October last , Declare what yo[u]"

- **L39R** |And what moved them therevnto . did they or anie of them → L39 stitched: "have [so^{u2}/yo^{u2}] shall or receaved ; And what moved them therevnto . did they or anie of them" (*the disputed word-order tokens sit LEFT of the strip — no new light; the flag stands, TNA*)
- **L40R** (*a CRAMPED, small-script squeezed line — visibly compressed between L39 and L42's ruling*) |inge of the said [Rees?/bill?] did they or any of them give or promise yo[u] anie fee → L40 stitched: "request yo[u] to be of ~~Councell~~ in the drawinge of the s|[aid] [Rees?/bill?] did they or any of them give or promise yo[u] anie fee" ★ the whole fee clause is a SQUEEZED line — cramping + the ~~Councell~~ strike candidate mark this clause as actively revised; the token after "of the said" reads Rees-like at native+ (07-02 flagged "[bill/Rees?]" too) — TNA. "fee" lands at L40's END, so the runover L41 reads just "for the same ," (its left-pass "[fee?]" bracket explained).
- **L41R** — BLANK (the runover tail "for the same ," lives wholly on the left half) ✓ census habit holds
- **L42R** |fore you were imprisoned resorte to the said → L42 stitched: "And did not you a litle be|fore you were imprisoned resorte to the said"
- **L43R** |Rowe or els where the said S[i]r Richard laye → L43 stitched: "S[i]r Richard[e]s house in Ch[a]n[n]ell Rowe or els where the said S[i]r Richard laye" ✓ Channell Rowe clause complete (z8art7_b1 verification holds)
- **L44R** |e companie w[i]th his men and diett → L44 stitched: "or remayned ; And did not yo[u] keep|e companie w[i]th **his men** and diett"
- **L45R** |lie vsed to diett ; And did not yo[u] → L45 stitched: "yo[ur]self w[i]th them where they comon|lie vsed to diett ; And did not yo[u]"
- **L46R** (*band foot, partial*) |illia[m] Bulkeley and what conference → L46 stitched: "self keepe companie w[i]th the said W|illia[m] Bulkeley and what conference"

Band R7 (src y 3290–4112) — Art. 7 tail; Art. 8 right halves (the acquittal + accounting probes)

- **L43R–L46R** re-read in overlap — as Band R6.
- **L47R** |Bulkeley touchinge the p[ro]ceedinge[s?] vpon the said → L47 stitched: "had yo[u] w[i]th the said Willia[m] Bulkeley touchinge the p[ro]ceedinge[s?] vpon the said" — into the runover L48 "bill" ✓ Art. 7 complete
- **L49R** |ttells **ha[dd?/II?]** you at the tyme you were → L49 stitched: "Item what lande[s?] ten[emen]t[e]s[s?] goods and cha|ttells had you at the tyme you were" (*the had-token shows an II-like terminal loop — "hadd" with looped d's preferred on grammar; same letterform class as L51's "hadd[?]" ; eB below*) ✓ the FOUR-member estate list + acquittal timestamp clause now complete across both halves
- **L50R** |ere were they ; And what some of money → L50 stitched: "acquitted of the said murther ; And wh|ere were they ; And what some of money"
- **L51R** |[fath]er ; And what some or somes of money did you → L51 stitched: "hadd[?] you sithens of yo[ur] father ; And what some or somes of money did you"
- **L52R** |the said [vj^{te}?/sixt?] of October [aswell?] in suit[e]s of (*the ordinal here reads letter-y — possibly spelled-out "sixt" vs L38's "vj^{te}"; eB below*) → L52 stitched: "disburs[e] or laye out sithens the said [vj^{te}/sixt] of October aswell in suites of"
- **L53R** |[expens]es ; And howe many suites or accions have [or hath?] yo[u] [?] (*tail tokens crease-crossed — resolve in R8 overlap*)

- **L54R** (*band foot, partial*) |[or els?] where[?] agaynst the def[endante]s in the said (*resolve in R8 overlap*)
- (*R7 eB pass: L49 "ha[dd/ll]"** — the initial stroke stays tall in eB; the SAME ambiguous letterform as L51's "hadd[?]" — one scribal habit, grammar-locked to "had(d)," flag kept not escalated. **L52 ordinal** — eB favors spelled-out "**sixt**" (long-s + ixt) over a numeral; L38/L4R use "vj^{te}" — both flagged, "sixt[?]" now lead here. L53 tail still crease-crossed.)*

Band R8 (src y 3838–4661) — Art. 8 completes; Art. 9 right halves (the "and talke" resolution)

- **L51R–L53R** re-read in overlap. L52R mid-token revised: "| the said sixt of October [aswell?/expended?] in suits of" — the token before "in suits" reads -ded/-ell ambiguous even on re-view; 07-02's "as well in suits of lawe as for yo[ur] owne expenses" needs "aswell," but "expended" fits the strokes — TNA. L53R tail: "have [or hath?] yo[u]" persists (crease + leaf-edge superscript).
- **L54R** | Westm̃ or els where agaynst the def[endante]s in the said → L54 stitched: "dependinge in the Cowrte of Westm̃ or els where agaynst the def[endante]s in the said" ✓ ("or els where" present; the singular "Cowrte" delta stands)
- **L55R** | said vj^{te} of October ; And whoe paied → L55 stitched: "bill named or any of them sithens the said vj^{te} of October ; And whoe paied" (*numeral ordinal here — L52's spelled-out form is the leaf's variant, not the rule*)
- **L56R** | o[ur] self ; And whoe advised yo[u] to take → L56 stitched: "any p[ar]te of the said charges besides y[o[ur] self ; And whoe advised yo[u] to take"
- **L57R** | and what moved yo[u] soe to doe / → L57 stitched: "the said ~~the said~~ accions and what moved yo[u] soe to doe /" (*terminal virgule — Art. 8 ends; the dittograph strike stands*)
- **L58R** | conferr and talke w[i]th the said S[i]r Richard Bulkeley ✓✓ FLAG RESOLVED: L58 stitched "And howe often did you conferr and talke w[i]th the said S[i]r Richard Bulkeley" — 07-02's reading CONFIRMED; the left-pass cut token was "and"'s first strokes.
- **L59R** | them the last terme touchinge the said bill in → L59 stitched: "& Willm Bulkeley or either of them th[e] last terme touchinge the said bill in" (*no strike-weight on "Bulkeley" from this side — the crease verdict stands*)
- **L60R** |[u] vpon thursdaye after you were lett at [large?] → L60 stitched: "the Starrechamber ; And did not yo|[u] vpon thursdaye after you were lett at [large?]" ("*[large?]*" still leaf-edge cramped — R9 overlap)
- **L61R** (*band foot, partial*) |[cret?]lie[?] [conferre?] w[i]th the said S[i]r Richard (*resolve in R9 overlap*)

Band R9 (src y 4387–5210) — Art. 9 completes; Art. 10 right halves (the liverye caret CONFIRMED)

- **L58R–L60R** re-read in overlap. L60's tail cluster still not letter-certain — "lett at [large?]" kept (07-02), leaf-edge flourish overrides both renders; TNA.
- **L61R** | man secretlie conferre w[i]th the said S[i]r Richard → L61 stitched: "by the warden of the ffleets man secretlie conferre w[i]th the said S[i]r Richard"
- **L62R** | me ; And what did he advise you to → L62 stitched: "Bulkeley in his chamber about the sa|me ; And what did he advise you to" — into the runover L63 "doe therein" ✓ Art. 9 complete; **L63R BLANK** (runover habit holds on the right side too)
- **L64R** | arden of the ffleete for yo[ur] appearaunce → L64 stitched: "And whoe passed his worde to the W|arden of the ffleete for yo[ur] appearaunce"

- **L65R** |t the said Towneley that passed his → L65 stitched: "in the Starrechamber ; Was yt no|t the said Towneley that passed his" ✓✓ FLAG RESOLVED: **NO caret near "Towneley"** — the liverye interline's only caret is the L66 one (between "you" and "And"); the left-pass placement stands. The interline's faded-orange tail "...liverye" is visible at this band's strip edge, riding the L65/L66 gap.
- **L66R** |est did he yt . And did not the said → L66 stitched: "worde for you ^{and one of S[i]r Richard[e]s men in liverye ;} And at whose requ|est did he yt . And did not the said"
- **L67R** (*band foot, partial*) |ny of their frends or followers **desired** → L67 stitched: "S[i]r Richard or Willm Bulkeley or a|ny of their frends or followers desired" (*past-form "desired" vs 07-02 "desire" — small flag, re-check R10 overlap*)

Band R10 (src y 4936–5759) — Art. 10 completes; Art. 11 right halves (the Coñ resolution)

- **L65R–L67R** re-read in overlap — "**desired**" holds on re-view (small delta vs 07-02 "desire").
- **L68R** |romise to save him harmeles yea or noe → L68 stitched: "the said Towneley soe to doe ; And p|romise to save him harmeles yea or noe"
- **L69R** |[le]y of kynred w[i]th the said S[i]r Richard → L69 stitched: "And is not the said Towneley of ky|nred w[i]th the said S[i]r Richard" ✓ Art. 10 ends (07-02 formula confirmed)
- **L70R** |r token sithens the said vj^{te} of October → L70 stitched: "And whether did you cary any letter o|r token sithens the said vj^{te} of October"
- **L71R** |in the **Coñ** of Anglesey from the said S[i]r Richard Bulkl[e]y ✓✓ FLAG RESOLVED: the Anglesey-unit token is "**Coñ**" — the standard abbreviation of *Comitatu*/"Countie" (C-o-m + tilde) — NOT "Comote"; 07-02's "Com[e]t[ie]" was reaching for this. Also the courier's source reads on to the surname: "from the said S[i]r Richard **Bulkl[e]y**" (cramped at leaf edge — 07-02 had to supply "[Bulkeley]").
- **L72R** |[paye]d or delivered yo[u] . To whome did you cary any such [lett] → L72 stitched: "for any money to be payed or delivered yo[u] . To whome did you cary any such lett|" — the word splits over the break into L73 "re or token" (the left pass's "line opens mid-word" explained: "lettre" divided lett|re)
- **L73R** |you receave of the said p[er]son or p[er]sons and → L73 stitched: "re or token ; And what money did you receave of the said p[er]son or p[er]sons and"
- **L74R** |nt or of any other servant bayliffe or → L74 stitched: "whome any such l[ett]re or token was se|nt or of any other servant bayliffe or"
- (*band foot: a small-script "...selfe"-like cluster enters — the Art-11 interline riding L75/L76; resolve in R11*)

Band R11 (src y 5485–6308) — Art. 11 completes (the interline body); the peticon clause right halves

- **L72R–L74R** re-read in overlap — as Band R10.
- **L75R** |[Ri]chard Bulkeley ^{or of the [him?]selfe} [?] [?] [?] and of whome → L75 stitched: "frende[s?] of the said S[i]r Richard B|ulkeley ^{or of the [him?]selfe} [2–3 tokens] and of whome" △ the Art-11 INTERLINE BODY sits here (faded ink, over "Bulkeley..."), reading "or of the [?]selfe" as 07-02 — but its middle token(s) stay unresolved; AND the MAIN LINE carries 2–3 further unresolved tokens between "Bulkeley" and "and of whome" — name-like strokes ("[Ro?]rland[?] Thorp[?]"-compatible at native+, entirely uncertain; 07-02 marked "[__ ?]"). eB check below; TNA either way.
- **L76R** |whether the said S[i]r Richard & Willia[m] → L76 stitched: "you receaved the same ; And whether the said S[i]r Richard & Willia[m]" (*the faint traces the left pass saw above "the same" = the tail slope of the L75 interline — resolved*)

- **L77R** |paye or promise to paye to the said → L77 stitched: "Bulkeley or either of them did paye or promise to paye to the said"
- **L78R** |money reward or recompence for his → L78 stitched: "Towneley any some or somes of money reward or recompence for his"
- **L79R** |[taken?] [&/or] to be taken in the said suite in the Starre → L79 stitched: "paynes and care[?] taken [&/or] to be taken in the said suite in the Starre|" — into the runover L80 "chamber," ✓ Art-11 tail complete; **L80R BLANK** (runover habit); the [&/or] connector still splits the renders — eB below
- **L81R** |p[re]ferred to my Lo[rd] Chauncello[r] for the → L81 stitched: "[**and?/But?**] did not you upon a peticon p[re]ferred to my Lo[rd] Chauncello[r] for the" (*"peticon" holds; the structural opener question is a LEFT-half/margin matter — no new light from this side*)
- **L82R** (*band foot, partial*) |said bill offer suerties to pay the → L82 stitched: "cont[y]nuance of the said suite upon [th]e said bill offer suerties to pay the"
- (*R11 eB pass: L75 main-line tokens stay unresolved in eB* — "[?]erland[?] [T?]horp[?] [were?]"-compatible strokes; a possible personal name ("Rowland Thorpe"-class) logged as candidate ONLY — 07-02's "[__ ?]" honest; TOP TNA item (a potential new cast member). The interline reads "or of the [?]selfe" in eB too — middle token short, "[him?]" kept. **L79 connector**: eB reads compact tironian "&" — now THREE views favor "&" vs one for "or": lead reading upgraded to "taken & to be taken" (small delta vs 07-02 "or"). L81 "Chauncello[r]" terminal flourish — possible -rs plural form, not pressed.)**

Band R12 (src y 6034–6720) — the sureties clause completes + TORN FOOT, right halves

- **L79R, L81R–L82R** re-read in overlap — as Band R11 (L80's runover right half BLANK again).
- **L83R** |creed agaynst yo[u] , yea or noe ; [**Whether?/Whoe?**] → L83 stitched: "hole[?] charge yf the cause were de|creed agaynst yo[u] , yea or noe ; Whe[?]" (*the clause-opener into L84 reads wh-initial; 07-02 supplied "Whe[ther]" — "Whoe" not excluded; TNA*)
- **L84R** |ded to put in ; what be their [names?] [& e[ver]y?] → L84 stitched: "[?] the said suerties that you soe inten|ded to put in ; what be their [names] [& every?]" (*tail tokens cramped into the foot stain*)
- **L85R** |[?] [**been or made?**] **promise** to be yo[ur] suerties in that behalfe ★ foot-zone gain: the clear right-half run reads "...promise to be yo[ur] suerties in that behalfe" and the preceding cluster fits "**b[ee]n or made promise**" — giving L85: "of their name[s] , [and?] w[ho] [have?] been or made promise to be yo[ur] suerties in that behalfe" (07-02's "[and who would have?] been [or?] promise[d]" refined). A FAINT cramped partial line rides between L84 and L85 at x≈0.45–0.75 — interline OR L85's faded head; scan-limited, professional-imaging item.
- **L86R** — the "...the same" tail zone sits under the foot stain on this side; no clean tokens beyond the left pass's "and[?] what mo[ved?] [them to?] the same [?]" Below: the TEAR. **NO writing beyond L86 on the right half; NO subscription.** ✓
- ✓ **CENSUS CONFIRMED from the right side: 86 written lines** — same count as the left pass; all four runover tails (L41/L48/L63/L80) have BLANK right halves, confirming they are short left-indented tails, not full lines.

✓ RIGHT HALF-COLUMN COMPLETE (12/12 bands, 2026-07-07) — PHASE 4A DONE

R-side flag-list resolutions (from the L-column foot list):

- **L25R** — the token precedes "John" (not "Towneley"); blotted/overwritten: "[one?/yo[u]?] John" — TNA. The "()" empty parentheses after "thereof" are REAL.
- **L31R** — interline tail read: "...or Willia[m] [K/H]endr[i/y]ck or^" (trailing "or"); surname initial still open — TNA.
- **L32R** — "And" before "from" CONFIRMED (it is L31's line-final token) — 07-02 right, left-pass doubt withdrawn. PLUS a NEW find: L32 ENDS with a struck token "~~be[fore?]~~" (survives eB).
- **L39** — word order unresolved (tokens sit left of the strip) — stands as TNA item.
- **L40R** — the fee clause is a CRAMPED squeezed line: "...in the drawinge of the s[aid] [Rees?/bill?] did they or any of them give or promise yo[u] anie fee"; cramping + the ~~Councell~~ strike mark the clause as actively revised; "fee" ends L40 (L41 runover = "for the same ,").
- **L58R** — "and talke" CONFIRMED (07-02 right).
- **L65R** — **NO caret near "Towneley"**; the liverye interline's only caret is at L66 between "you" and "And" — left-pass placement CONFIRMED.
- **L71R** — "**Coñ**" = the standard *Comitatu*/"Countie" abbreviation (NOT "Comote") — RESOLVED; plus "from the said S[i]r Richard Bulkl[e]y" surname now read (was supplied).
- **L81R** — "peticon p[re]ferred to my Lo[rd] Chauncello[r]" clause confirmed; the [and?/But?] opener + Art-12 structure question remains a left-margin/TNA matter.
- **Foot lines** — L83–L85 right halves recovered ("decreed agaynst yo[u]"; "put in ; what be their [names]"; "been or made promise to be yo[ur] suerties in that behalfe"); L86 tail under the foot stain; census 86 CONFIRMED.

NEW right-half deltas added to the log (see below): #14–#19.

CONSOLIDATED DELTA LOG — Phase 4A additions from the RIGHT half-column (continuing the L-column list #1–13):

- L23** — **NEW INTERLINE** "[or to?] be of Counsell" ($\chi \approx 0.65$ – 0.85 , survives nat+eB): Art. 4's predicate is "p[re]ferre the said bill or to be of Counsell" — 07-02 read these tokens as in-line text; they are an insertion, same revision layer as ^{to you or}. TNA.
- L32** — **NEW STRUCK TOKEN "~~be[fore?]~~" at line end** (survives eB): the Art-5 strike zone spans the L32/L33 line break — three struck tokens total ("...p[er]son or p[er]sons ~~be[fore?]~~ / ^{ly} ~~[ffee?]~~ gave any direction...").
- L12** — **the executed man's name in the THREE-ELEMENT form "Willia[m] ap Res [ap?] W^m"** (superscript-m abbreviation at line end) — 07-02's "by [who]m" doubtful; matches L16's "ap Res ap Willia[m]". TNA name item.
- L27/L21** — **"Trustram"** (u-bowl in three views) — 07-02's "Tristram" was a normalization; scribal spelling stands. Cf. also "desired" (L67), "sixt" (L52 lead), "aswell/expended" (L52) — small spelling deltas.
- L40** — **the fee clause is a SQUEEZED line** — physical evidence of revision at exactly the clause carrying the ~~Councell~~ strike candidate.

19. L75 — 2–3 UNRESOLVED main-line tokens between "Bulkeley" and "and of whome" — name-like ("[Ro?]rland [T?]horp[?]"-class) — possible NEW cast member; TOP TNA item (with the "[K/H]endrick" interline, the instrument may name TWO otherwise-unrecorded intermediaries).

Instrument-level result (Phase 4A): the leaf reads as ONE actively-revised draft — five insertion/strike events now mapped (the «or» at L22; ^{or to be of Counsell} at L23; the three-token strike across L32/L33 + ^{to you or} at L33; the ~~Councell~~ strike + squeeze at L40; the liverye interline at L65/66; the "or of the [him?]selfe" interline at L75) — all in the same orange/faded second-ink family where interlined. The census is 86; the professional TNA transcription arbitrates the flagged names (Lloyd patronym Ev[a]n/Hu[?]; ap Res ap W^m; [K/H]endrick; the L75 tokens; [one?/yo[u]?] John) and the L81/Art-12 structure.

NEXT (Phase 4B): membrane 009 by the same method — cut L/R half-column tiles at 25% overlap (009 is the continuation leaf, arts 13–16, margin "14" verified), read against `_WORKING_009_TRANSCRIPTION.md` with a line census + delta log; then Phase 4C (010 seam-strips + [?]-token re-renders), Phase 4D (ask user re 001–007).
